

College and Career Services Program Guide 2025-2026

The purpose of this program guide is to provide middle and high school students and their parents with valuable information on district and site-based college and career services and programs offered throughout Academy School District 20.

MISSION

We educate and inspire students to thrive.

VALUES

We believe people are the heart of our success.

We believe relationships matter.

We believe in quality education.

VISION

We provide creative and personal learning opportunities accessible to all students, preparing them to thrive in an ever-changing world.

The development and publication of this program guide was funded in part by grant dollars obtained through the Strengthening Career and Technical Education for the Twenty First Century Act (Carl D. Perkins Act V) and the Colorado State Board for Community Colleges and Occupational Education (SBCCOE) which oversees all Career and Technical Education (CTE) programs for the state of Colorado.

Disclaimer: Every effort was made to ensure accuracy in this program guide at the time of publication (January 2025). Due to continued evaluation, refinement, funding, staff availability, and program changes beyond our control, information herein is subject to change. Please contact the school of the specific program of interest for the most current information.

Moving into the Future...What's New!

Career Academies

The career academy model is a successful approach to education based on the idea that students work harder and dream bigger if their education is relevant to them. This approach integrates rigorous academics that meet college-ready standards with sequenced, high-quality career-technical education, work-based learning, and supports to help students stay on track. For career academy students, education is organized around industry-sector themes. The industry theme is woven into lessons taught by teachers who collaborate across subject areas with input from working professionals and reinforced by work-based learning with real employers. This makes learning more like the real world of work and helps students answer the question, “Why do I need to know this?”

Career academies expose high school students to previously unimagined college and career opportunities by turning their education into a personally relevant, engaging experience. Research shows that career academy students have higher rates of engagement and higher graduation rates than their peers at traditional high schools. This approach to education is helping to create a disciplined, prepared, and productive future workforce, ready to succeed in college, career, and life.

Career academies are designed to prepare students for postsecondary education and careers. They are schools within schools that link students with peers, teachers, and community partners in a structured environment that fosters academic success. The career academy concept has four key elements:

- A small learning community (SLC)—school within a school
- A college-prep sequential academic curriculum with a career theme—Career and Technical Education (CTE)
- An advisory board that forges partnerships with employers, higher education institutions, and the broader community
- A sequenced, comprehensive work-based learning embedded component

For more information, please contact the academy-hosting high school. Here are the projected Career Academies for Academy District 20 high schools:

School	Career Academies
Air Academy HS	Business, Leadership, Entrepreneurship Academy
Air Academy HS	Media Arts Academy
Discovery Canyon HS	Engineering Academy
Discovery Canyon HS	Biomedical Science Academy
Liberty HS	Architecture, Engineering, and Construction (ACE) Academy
Pine Creek HS	Graphic Arts Academy
Pine Creek HS	Computer Science Academy
Rampart HS	Digital and Print Media Journalism Academy

Future Center of Excellence at Air Academy High School

With the passage of the 2024 Academy District 20 2024 Bond, a new campus will be built for Air Academy High School. Part of the Air Academy High School build will be a state-of-the-art Career and Technical Education (CTE) center which will be open to students regardless of which D20 high school a student attends. This “Center of Excellence” will be a bookend to the existing Center of Excellence, located at Liberty High School which houses Automotive Technology, Construction Technology, Certified Nurse Assistant (CNA), and Emergency Medical Technician (EMT) certification CTE pathways open to students’ district wide. The projected Center of Excellence CTE pathways will be Aviation, Advanced Manufacturing/Mechatronics, Hospitality Management/Culinary, and Computer Programming/AI Technology.

ASD20 College and Career Navigator

ASD20 students have access to a comprehensive college and career readiness solution, the ASD20 College and Career Navigator. The Navigator utilizes a Career-Centric Pathway Planning model, which puts the career as the destination for all students, allowing them to build a pathway around their specific cluster, career, or occupational aspirations.

The model assists students in defining their aspirations through an evaluation of their interests, skills, and values, then helps them to build an education and training plan that encompasses high school courses, experiential learning, and continuing education to pave the path toward their best-fit career.

The ASD20 College and Career Navigator is a tool we can use to reimagine the Individual Career and Academy Plan (ICAP) process through early and focused career awareness curriculum that supports students identifying career interests and aligning those with educational pathways in D20.

Individual Career and Academic Plan (ICAP)

Colorado Legislation requires that all districts assist high school students in creating an Individual Career and Academic Plan (ICAP). Not only a legal requirement, the ICAP is good educational practice; therefore, D20 goes beyond the 9-12 grade requirement by starting this process in 6th grade. ICAP helps students explore career and academic opportunities and aids in establishing a plan for students' secondary coursework which aligns to their post-secondary college and career goals. Students develop awareness, knowledge, attitudes, and skills to be college and career ready. In addition to annual goals and course planning, the Academy District 20 ICAP program includes various exploratory and planning activities and is customizable at the school, counselor, and student levels to best meet the needs of students. Students interact with the D20 College and Career Navigator to engage in ICAP.

Students access the D20 College and Career Navigator through [Clever](#)

[Career Guidance Best Practices:](#)

[Academy District 20 Policy IHBK: Preparation for Postsecondary and Workforce Success](#)

Career & Technical Education (CTE) Programs

A CTE program is a sequence of two or more career/industry specific-themed courses within one of six career clusters and seventeen industry sectors. The CTE program courses are built upon each other and are taken in sequence. "Shop class" or "vocational education" of the past may come to mind when thinking of CTE programs...but this is not an accurate view of modern CTE programs. CTE programs are standards-aligned courses which focus on learning and applying rigorous and relevant academic skills, employability skills, and technical skills. If your goal is to pursue an interest in automotive technology, engineering, medical fields, technology, business, etc., there is a pathway for you.

Through CTE programs, students acquire the skills necessary for entry into well-paid careers and/or post-secondary college/university programs. CTE pathways also provide purpose to their high school program and to their post-high school professional lives, thereby providing a higher degree of personal satisfaction and encouraging greater levels of responsibility.

Many CTE programs also provide work-based learning (WBL) opportunities (guest speakers, industry tours, job shadows, and internships) in addition to industry-based certification opportunities or even college credit. In addition, CTE programs provide opportunities for leadership development and competitions through participation in student organizations aligned to the CTE pathway's industry sector.

CTE Involvement Allows for Participation in Co/Extra-Curricular Programs

Students can be involved in multiple academic, co-curricular, or extra-curricular programs and still be in a CTE program. Students should work with their counselor to determine the best course selection plan to participate in their desired CTE programs.

How to Get Involved in a CTE Program

Each of the Academy District 20 high schools offers specific CTE programs unique to each high school in addition to several programs that are open to all district students no matter which high school they attend. Upon registering for courses, students should utilize this program planning guide and discuss the different CTE pathways options and alignment with the student's ICAP goals with their school counselor.

District 20 Career Technical Education (CTE) High School Programs

Air Academy HS	Aspen Valley HS	Discovery Canyon HS	Liberty HS	Pine Creek HS	Rampart HS	The Village HS
Aviation	WBL-Culinary	Biomedical Science*	Automotive Tech**	Biomedical Science*	American Sign Language (ASL)-Education *	Business & Marketing
Business & Marketing		Business & Marketing*	Construction Tech.**	Business & Marketing	Business & Marketing*	Education (Teacher Cadet)

Engineering *		Engineering *	Certified Nurse Assistant (CNA)* and **	Digital Media	Digital Media*	
Family and Consumer Sci/Interior Design			Emergency Medical Tech. (EMT) * and **	Graphic Arts	Family and Education Science	
			Digital Media			
			Theatre Tech.			
			Wood Production			
* College Credit opportunity through PLTW/UCCS, Teacher Cadet/UCCS, IB, AP, PPSC, or UCCS.						
**Open to students at all high schools, Centers of Excellence						

Middle School CTE Programs

Academy District 20 offers 16 CTE programs in six of our middle schools. Middle School CTE programs are exploratory in nature, focused on exploring connections to career possibilities through exposure to various industry sectors. CTE introduces students to their interests, resulting in relevant learning with an increase in their engagement, which better informs their ICAP planning for high school and post-secondary. Middle School programs are open to students who are attending those schools. Below is a table of ASD20 middle school CTE exploratory programs:

Challenger	Chinook Trail	Discovery Canyon	Eagleview	Mountain Ridge	Timberview
Digital Media	Digital Media	-	Digital Media	Digital Media	Digital Media
-	Industrial Technology	Industrial Technology	Industrial Technology	Industrial Technology	Industrial Technology
-	STEM-Computer Technology	STEM-Engineering	STEM-Computer Technology	-	-
-	-	-	Theater Production	Theater Production	Theater Production

Center of Excellence, CTE Programs Open to Students District-Wide

CTE programs are site-specific to the high school which a student attends, but there are several district CTE programs “Center of Excellence,” that are available to all district school students regardless of their D20 high school of attendance (see page 27 for age/grade limitations for each program). If more qualified applicants exist than there is space, a lottery system will be utilized. Approved students will be provided with release time to attend the CTE program at the high school where the program is housed. Students may be responsible for securing their own transportation to and from their chosen program. The table below lists the district CTE programs.

District CTE Programs	Program Location
Automotive Service Technology	Liberty High School
Building Construction Technology	Liberty High School
Certified Nurse Assistant (CNA)*	Liberty High School (PPSC program)
Emergency Medical Technician (EMT)*	Liberty High School (PPSC program)
Hairstyling, Esthetician, or Nails Certification	International Salon and Spa Academy (ISSA)
Teacher Cadet*	Discovery Canyon High School

*The **Teacher Cadet**, **CNA**, and **EMT** programs are explained in more detail in College Credit

Opportunities for Students Involved in CTE Program section.

Automotive Service Technology Program at Liberty High School

In this two-year course sequence, students participate in real-world auto service training through maintenance, diagnosis, removal, and installation of specific automotive drivetrain components. Students focus on industry standard processes and safety procedures in the environment of a working auto shop. Students learn through competency-based instruction that leads to industry standard Automotive Service Excellence (ASE) certification. Students will gain a foundation for entry-level employment or further schooling/training.

Building Construction Technology Program at Liberty High School

In this two-year program, students will apply technical knowledge and skills to residential and commercial building construction and remodeling through authentic construction projects. This course introduces students to all aspects of construction with a focus on Home Builder's Institute (HBI) Pre-Apprentice Certification Training (PACT) in the following areas: (1) Building Trades, Safety, and First Aid; (2) Construction Math; (3) Tools & Construction Materials; and (4) Employability. Students will gain a foundation for entry-level employment or further schooling/training.

Hairstyling, Esthetician, or Nail Tech Certifications at the International Salon and Spa Academy (ISSA)

Junior and senior students may enroll in a two-year hairstyling industry certification program, esthetician program (one-year), or a nail technician program (one-year) through the International Salon and Spa Academy (ISSA). Students earn high school credit while preparing for their industry certification; however, no college credit is awarded through this ISSA program. Students attend half-day courses at ISSA. Students earn four core elective high school credits each semester. The ISSA facility is located at 5707 N Academy Blvd in Colorado Springs.

Please note:

D20 sponsors a total of 35 students at ISSA per academic year. This includes 1st and 2nd year hairstyling students, nail technician students, and esthetician students.

There is no transportation available for ISSA students. All students attending ISSA must provide their own transportation to attend the program.

See the following for additional information:

[ISSA Website](#)

College Credit Opportunities for Students Involved in CTE Programs

Several high school CTE programs allow for college credit based on the specific curriculum being taught in the high school course itself (i.e., Project Lead the Way) or based on articulation agreements with a college, or college courses offered on D20 campuses. For the most current list of articulated CTE courses at Pikes Peak State College (PPSC), please visit their [High School Articulation website](#)

High School	PPSC Articulated Courses
Air Academy HS	International Foods—CUA 2045 International Cuisine (2 credits) Interior Design—IND 1100 Fundamentals of Interior Design (4 credits)
Discovery Canyon HS	Introduction to Engineering Design—EGG1020 Engineering Methods (3 credits) It's Your Business—BUS 1015 Introduction to Business (3 credits)
Liberty HS	Photography 1—PHO 1020 Fundamentals of Photography (3 credits) Accounting Principles—ACC 1001 Fundamentals of Accounting (3 credits)
Pine Creek HS	It's Your Business—BUS 1015 Introduction to Business (3 credits)
Rampart HS	It's Your Business—BUS 1015 Introduction to Business (3 credits) Electronic Media 1 & 2—RTV 1002 Beginning Television (3 credits) Electronic Media 3 & 4—RTV 1005 Basic Video Production (3 credits)

In addition, D20 has a partnership with PPSC which allows students to get release time to take CTE programs at the college-level on PPSC's campus (Career Start program, see next page). For non-CTE based college credit opportunities, please visit the "Concurrent/Dual Enrollment College Credit Opportunities" section of this program guide (page 25).

CAREER START at Pikes Peak State College (PPSC)

High school juniors and seniors can apply for this half-day program in a technical or trade area of study. Students earn core elective high school credit as well as college credit that can be applied to an associate degree program or obtain an industry certification. Students attend courses at PPSC Centennial Campus. Here is a list of the D20 sponsored programs being offered in Career Start:

PPSC Career Start Programs	
Automobile Collision Technology	Fire Science Technology
Automotive Service (ASE)	Health Science Technology
Broadcast & Electronic Media	Health Career Exploration
Criminal Justice	Multimedia Graphic Design
Culinary Arts	Veterinary Assistant
Cyber Security	Welding
Diesel Power Technology	Zoo Keeping
Early Childhood Education	

Please see **Appendix A Career Start at Pikes Peak State College: Credit Allocation** on page 47 for a breakdown of Career Start programs and courses along with the credit that can be earned at both the high school and college levels.

Students must meet with their high school counselor before completing the District 20 application process electronically. It is recommended that students attend an information session at their school or through District 20 College and Career Services Department. There are also information sessions and Visit Days hosted by PPSC. Program application/registration at PPSC happens in March of each year.

[PPSC Career Start Information Page](#)

District 20 sponsors a total of 120 Career Start students each year; qualified second year students are given priority. Depending on interest and numbers of applications, the D20 application process for first year Career Start may be quite competitive, and all applicants must meet academic qualifications for concurrent enrollment to be considered (See page 32).

Transportation is available for up to 50 Career Start students. The application for transportation is part of the D20 application process for Career Start.

Pikes Peak State College Medical Field Programs at Academy District 20

Academy District 20 is pleased to provide tuition-free PPSC CTE pathway courses at the Liberty High School campus to a limited number of students throughout the district wishing to pursue licensure as a:

- Certified Nursing Assistant (CNA)—80 slots available for 11th and 12th grade students. There are 40 slots available each semester, as this is a one-semester program.

- Emergency Medical Technician (EMT)—40 slots available for 12th grade students. This is a two-semester program.

College Credit: Through concurrent enrollment, students accelerate their learning and participate in college courses while still in high school by taking Pikes Peak State College courses that can lead to industry certification. Families save money on college costs, and students earn college credits that may apply toward their future career and educational goals. Qualified students from any high school in D20 may apply for the CNA or EMT program.

Certified Nurse Assistant (CNA) at Liberty High School

In this Pikes Peak State College program (housed at LHS), students prepare for the nurse aide certification exam by expanding foundational healthcare skills and applying basic nursing theory to the practice of client care. Through lab-based simulations and clinical experiences, students will demonstrate nursing principles and competencies, restorative services, safety practices, and emergency care while they model professional skills.

Courses offered in the program may be adjusted by PPSC, but typically include:

PPSC Course	Credit Hours at PPSC	High School Credit in D20
HPR1011: CPR for Professionals	0.5	1 unweighted core elective
NUA1001: Nurse Aide Health Care Skills	4	2 unweighted core electives
NUA1070: Nurse Aid Clinical Experience	1	1 unweighted core elective
NUA1071: Clinical: Advanced Nurse Aid	1	1 unweighted core elective

Emergency Medical Technician (EMT) at Liberty High School

In this Pikes Peak State College program housed at LHS, students prepare for the National Registry of Emergency Medical Technicians exam by applying foundational healthcare skills to the practice of basic emergency pre-hospital client care. Through classroom simulations and clinical experiences, students will demonstrate an understanding of basic anatomy and psychology, patient assessment, communication strategies, and emergency medical interventions.

Please note: This program is for seniors only.

Courses offered in the program may be adjusted by PPSC, but typically include:

PPSC Course	Credit Hours at PPSC	High School Credit in D20
EMS1021: EMT Fundamentals	3	2 unweighted core electives
EMS1022: EMT Medical Emergencies	4	2 unweighted core electives
EMS1023: EMT Trauma Emergencies	2	1 unweighted core elective
EMS1024: EMT Special Considerations	2	1 unweighted core elective
HPR1011: CPR for Professionals	0.5	1 unweighted core elective
EMS1070: EMT Clinical	1	1 unweighted core elective

Teacher Cadet Program at Discovery Canyon High School and Village High School

The Teacher Cadet Program (housed at DCHS and VHS) is open to 11th and 12th grade students. Teacher Cadet uses an innovative approach designed to attract talented young people to the teaching profession through a challenging introduction to teaching. The program seeks to provide high school students with insight into the nature of teaching, the problems of schooling, and the critical issues affecting the quality of education in America's schools. Students in the Teacher Cadet program participate in a six-week mini-teaching internship, a professional shadow experience, and observations of learners at all age groups.

College Credit: Students may earn the following college credit through UCCS for successfully completing high school Teacher Cadet courses:

- Teacher Cadet I is transcribed at UCCS as LEAD1000: American Foundations of Education
- Teacher Cadet II is transcribed at UCCS as EDUC2000: Intro to Educational Psychology

The courses above are not listed in the TREP (Teacher Recruitment and Education Program) Educator Pathway list, but for students hoping to apply as TREP students through UCCS, either Teacher Cadet course is qualifying if students receive the UCCS credit and provide a UCCS transcript.

The high school Teacher Cadet instructor receives student registration instructions from the university for their approved courses, as Teacher Cadet is categorized as a CU Succeed course. The teacher will distribute these guidelines to their students in the spring for year-long classes. To receive college credit, students must register by the UCCS published deadline. These college credits will only be recorded on the UCCS transcript, which students can order via the additional information linked below.

See the following for additional information:

[Teacher Cadet Program](#)

Project Lead the Way (PLTW) Programs in Engineering and Biomedical Sciences

Academy District 20 offers several site-based CTE pathways throughout the district that utilize the PLTW curriculum:

Engineering Programs

- Air Academy High School
- Discovery Canyon Campus High School

Biomedical Sciences Programs

- Discovery Canyon Campus High School
- Pine Creek High School

PLTW Engineering empowers students to step into the role of an engineer, adopt a problem-solving mindset, and make the leap from dreamers to doers. PLTW courses engage students in compelling, real-world challenges that help them become better collaborators and thinkers. Students gain in-demand knowledge and skills they will use in high school and for the rest of their lives, on any career path they take.

By immersing students in activities like practicing suturing and constructing body structures from clay, **PLTW Biomedical Science** empowers students to build knowledge and skills in biomedical science, as well as in-demand, transportable skills like problem solving, critical and creative thinking, communication, and collaboration.

College Credit: Students may earn college credit through UCCS for successfully completing high school PLTW courses. Some courses may transfer to other institutions of higher education within Colorado. The student is responsible for researching transferability.

High school PLTW teachers receive student registration instructions from the university for their approved courses. Teachers will distribute these guidelines to their students in the spring for year-long classes. To receive college credit, students must register by UCCS' published deadline. These college credits will only be recorded on the UCCS transcript, which students can order via additional information linked below. A list of PLTW courses being offered at D20 campuses is included in **Appendix D**.

See the following for additional information:

Work-Based Learning (WBL) Opportunities

Work-Based Learning is a continuum of activities that begins with experiences that help one learn *about* work (such as career fairs, career presentations, career interviews), then progresses to learning *through* work (job shadows, internships, clinicals, etc.), and finally the student engages in learning *at* work (on-the-job training and apprenticeships). For the best experience, students need to start broad and gradually narrow their focus. For example, a student that expressed interest in STEM careers as a middle schooler may, through a series of career exploration activities, identify that they are specifically interested in mechanical engineering by their senior year in high school. Or a student who loves reading and writing is slowly able to reveal a deep interest in journalism. Whatever the interest is, there are Work-Based Learning opportunities out there that would help the student get some much-needed real world experience under their belt.

Students who wish to participate in off-site, unsupervised WBL opportunities, such as job shadows or internships, will follow one of two paths, depending on whether or not they are enrolled in a career and technical education (CTE) pathway. **Students who are enrolled in CTE pathways** will have work-based learning experiences embedded in their pathway and will have opportunities to participate in additional Work-Based Learning activities that are teacher-sponsored. **Students who are not enrolled in a CTE pathway** will work with the high school site's Work-Based Learning Liaison to utilize the opportunities listed through the Pikes Peak Business and Education Alliance (PPBEA). In all cases, it is best practice to follow the continuum. For more information about work-based learning, please speak with your CTE pathway teacher or your site's designated WBL Liaison, generally the College & College Counselor.

Work-Based Learning Procedures

Work-Based Learning Continuum Activities—On Campus, Supervised

All student Work-Based Learning continuum of activities do not require an application and the completion of the enclosed paperwork in this manual if those activities are short in duration and/or students remain on school premises under teacher supervision (i.e. on-site career awareness and exploration activities, guest speakers, informal/mock interviews, on-site career fairs, school-based enterprises, etc.). Please follow your site policies for guest speakers and other activities where community partners are interacting with supervised students.

A good instructional practice for on-campus supervised WBL activities is to have writing prompts and other related activities, so students can reflect upon their experience and how it relates to the class curriculum, ICAP, and their college and career readiness.

Work-Based Learning Continuum Activities—Off Campus, Supervised

WBL activities off campus such as off-site career fairs and industry/worksite tours, and industry sponsored projects, as examples, need to follow activity/field trip procedures as outlined in Academy

District 20 Administrative Policies Section I: IJOA-E (Activity/Field Trip Information Guide) and IJOA-R (Field Trip Procedures).

As mentioned previously, a good instructional practice for off-campus supervised WBL activities is to have writing prompts and other related activities, so students can reflect upon their experience and how it relates to the class curriculum, ICAP, and their college and career readiness.

Work-Based Learning Continuum Activities—Off Campus, Unsupervised

Off campus unsupervised WBL activities include job shadows, clinical/field experience, credit for work experience, industry sponsored projects, internships, pre-apprenticeships/apprenticeships, SAE projects, and on-the-job training. These activities or programs usually have the student in the industry/workplace unsupervised by their teacher but work directly with industry partners. Some programs have their own specific requirements and procedures (such as SWAP, pre-apprenticeship/apprenticeship programs). Please contact your teacher or those specific programs for their procedures in addition to Academy District 20 procedures.

There are two paths to securing off campus, unsupervised WBL opportunities:

- 1) Through either Academy District 20's WBL Coordinator or site WBL Lead, College and Career Counselor, or CTE pathway teacher.
- 2) Through Pikes Peak Business and Education Alliance (PPBEA), a regional WBL tool and website. Opportunities utilizing PPBEA should be initiated through the site WBL Liaison, College and Career Counselor, or teacher.

In all cases, it is best practice to follow the continuum. This means that students should complete a job shadow prior to applying for an internship, preferably completing both within the same industry and with the same industry partner.

Please note, that placement in an unsupervised WBL experience is at the discretion of the industry partner/place of business and are often competitive and require additional steps with the industry partner, such as formal interviews.

Additionally, students must meet a set of criteria before participating. The qualifications below ensure the student is prepared for the unsupervised experience, that both the students and the industry partner understand what is required of them, and that student safety and expectations of professionalism in a place of business are honored and respected.

Student WBL Criteria:

To qualify for participation in off-site, unsupervised WBL experiences, students:

- Must be passing (no F's) all current and previous semester courses.
- Must have good citizenship and behavior and not under any current school disciplinary actions.

- Must have good attendance (no truancy issues) for current and prior semesters.

Note: The industry in which the student is hoping to participate in a Work-Based Learning opportunity should align with the student’s individual career and academic plan (ICAP).

The following table shows a step-by-step process for WBL sponsored by the school district versus WBL sponsored by PPBEA.

Academy District 20 Sponsored WBL	PPBEA Sponsored WBL
<ul style="list-style-type: none"> <input type="checkbox"/> Student and teacher or site WBL Lead connect regarding desired or recommended WBL opportunity. If appropriate, the student is given ok and provided with a link to the application. Ensure WBL Continuum is followed. <input type="checkbox"/> Student completes the D20 Student WBL Application. The application includes District-required worker’s compensation documentation and media releases. The application will progress from student → parent/guardian → site sponsor (college and career counselor or teacher) → District WBL Coordinator. Students should not begin placement until after all steps have been completed. Students and parent/guardian will automatically receive a copy of the finalized application. All approved applications will be uploaded into the student’s Infinite Campus account, in the Vocational Education tab documents. <input type="checkbox"/> School site sponsor, student, or parent/guardian, or D20 WBL Coordinator secures an opportunity for the student(s) and/or interview with industry partner (if required). <input type="checkbox"/> After completion of the off-site WBL experience, the student should complete a Student Reflection Form (example on page of WBL Program Guide). * <input type="checkbox"/> For job shadows and internships, Industry Partner may be prompted to complete the Industry Partner WBL Evaluation of Student Form and the Industry Partner WBL Experience Evaluation Form. * <p>* Digital copies of all D20 WBL forms and time logs must be returned to the D20 WBL Coordinator.</p>	<ul style="list-style-type: none"> <input type="checkbox"/> Student and teacher or site WBL Lead connect regarding desired or recommended WBL opportunity. If appropriate, the student is given ok and provided with a link to the application. Ensure WBL Continuum is followed. <input type="checkbox"/> Student complete the ASD20 Student WBL Application. The application includes District-required worker’s compensation documentation and media releases. The application will progress from student → parent/guardian → site sponsor (college and career counselor or teacher) → District WBL Coordinator. Students should not begin placement until after all steps have been completed. Students and parent/guardian will automatically receive a copy of the finalized application. All approved applications will be uploaded into the student’s Infinite Campus account, in the Vocational Education tab documents. <input type="checkbox"/> Student creates a basic & expanded profile on PPBEA website (see PPBEA section in this manual). <input type="checkbox"/> Student and parent/guardian complete PPBEA acknowledgement documents. <input type="checkbox"/> Student complete the PPBEA online Professionalism 101 course. <input type="checkbox"/> Student connects their PPBEA profile to their school-based sponsor. <input type="checkbox"/> Student applies for opportunity in PPBEA Marketplace (if meets minimum requirements). <input type="checkbox"/> Student is accepted and referred for placement or is interviewed for placement by an industry partner.

	<ul style="list-style-type: none"> <input type="checkbox"/> Student maintains PPBEA time sheet throughout experience (digital copy to district CCS Dept.*). <input type="checkbox"/> PPBEA Performance evaluation is completed by hosting industry partner and student (1 for every 60 hours). <input type="checkbox"/> PPBEA quality survey is sent to student, hosting industry partners, and school-based sponsor). <p>* D20 WBL Coordinator must have a complete digital copy of the time sheet and performance evaluations.</p>

School to Work Alliance Program (SWAP)

The School to Work Alliance Program (SWAP) is a collaborative initiative between the Colorado Division of Vocational Rehabilitation (DVR) and local school districts/Board of Cooperative Educational Services (BOCES) and is supported by the Colorado Department of Education (CDE). SWAP provides case management and direct services to **young adults with disabilities** who:

- Are eligible to receive DVR services (meeting disability documentation requirements and able to benefit from the program); and
- Have mild to moderate needs in employment;
- Need support in developing vocational awareness, career exploration, and experiencing career and employment opportunities to become competitively employed and to achieve successful outcomes.

Purpose of SWAP: The purpose of SWAP is to assist young adults in making the transition from school to employment, provide successful employment outcomes, increase community linkages, and new patterns of service for young adults within all categories of disabilities. The program's goals include:

- Building on current transition planning efforts;
- Creating a career pathway through pre-employment transition services;
- Filling the case management gap for the targeted population; and
- Supporting collaboration between DVR and local school districts/BOCES.

SWAP is intended to provide employment-related assistance to young adults with disabilities, who are experiencing mild to moderate barriers to employment. Disabilities can include but are not limited to physical, emotional, or learning disabilities. SWAP provides opportunities for young adults to practice and improve workplace skills, consider their career interests, and obtain real world work experience that will lead to competitive, integrated employment in today's high demand industries.

SWAP Services: Young adults potentially eligible or eligible for services provided through DVR, qualify to receive evaluation and diagnostic services, vocational counseling and guidance, physical and mental restoration services, and training. Additionally, SWAP may provide services such as:

- Pre-employment transition services
- Career exploration
- Career development
- Employment-related instruction
- Job development / placement
- Case management
- One year of follow-up
- Year-round community-based services

SWAP may provide services when appropriate to:

- Eligible applicants for DVR services, and
- Young adults between the ages of 15-24, and
- Have mild to moderate needs in employment, and
- Typically living within the boundaries of a school district/BOCES participating in the SWAP program. Young adults who do not live in a participating district/BOCES may access vocational rehabilitation services directly through DVR.

Young Adults could be:

- In-School:
 - Person with a disability under 504 of the Americans with Disability Act.
 - Receiving special education services.
 - Suspected or known disability not under any other category.
- Out-of-School:
 - Graduated or aged out.
 - Drop-out or at risk of dropping out.
 - Unemployed or underemployed.

SWAP would not be appropriate for:

- Middle school aged students or younger.
- Young adults with significant needs who will require extensive services or currently are eligible for supported employment services.
- Young adults with on-going legal problems that make placement in a work setting difficult.

Academy District 20 SWAP Contacts (SWAP Coordinators):

- Michelle Casner, 719-234-1377, michelle.casner@asd20.org
- Morgan Markewich, 719-234-1369, morgan.markewich@asd20.org

Concurrent/Dual Enrollment College Credit Opportunities

College Credit for Courses Taken During High School

What are some reasons you might consider Concurrent Enrollment? Here are some of the best reasons cited on the [Colorado Department of Education Concurrent Enrollment Website](#)

No tuition cost to you—The school district covers the cost of tuition; for most courses and programs, students and families pay for books and fees.

Save money and time on college—By taking Concurrent Enrollment courses while in high school at no tuition cost, you save money and time by not having to take and pay for those courses when you enroll in college after high school graduation. Learn more about the [costs of college](#)

Guaranteed credit transfer—Many Concurrent Enrollment classes are guaranteed to transfer to any public institution within the state of Colorado. However, while courses transfer, it is still important to determine if they will apply to your college degree or certificate. Learn more about the [transfer of credits](#)

Convenience—Some of our college-credit bearing classes are taught in District 20 high schools! This means that these classes may fit into your high school schedule, and you do not have to own a car and drive to a college campus to earn credit.

Build up your confidence—Counselors report that students who are nervous about taking a college class end up being more confident once they pass because they know they can be successful in college.

Opportunities to earn industry-based certifications— When you take CTE Concurrent or Dual Enrollment courses, you have the opportunity to earn industry-based certifications, which are recognized by local and national workforce agencies and indicate a student has developed the skills necessary to be successful in this competitive workforce.

Students are successful—Data from the Colorado Department of Higher Education and the Colorado State Board for Community Colleges and Occupational Education show over 90% of students who take Concurrent Enrollment courses pass with a C or better.

Concurrent Enrollment at University of Colorado Colorado Springs (UCCS), Metropolitan State University of Denver (MSU Denver), or Pikes Peak State College (PPSC)

College-ready high school students can apply for a course at UCCS, MSU Denver, or PPSC and earn high school and college credit. All courses must be pre-approved by the student's high school counselor and by College and Career Services to qualify for Concurrent Enrollment. Only in-person UCCS courses will be approved for Concurrent Enrollment; only online courses are approved at MSUD. PPSC courses are typically only approved in-person, but requests for online CE courses through PPSC may be considered on a case-by-case basis.

Courses that are listed on the state's GT (guaranteed transfer) list are generally approved for concurrent enrollment if they align with a student's ICAP plan. The courses on this list are subject to change, and courses not listed may transfer to certain institutions. It is important that students research how individual courses may benefit them in their postsecondary endeavors.

Consider the following before applying for concurrent enrollment:

- At the time of your application, you will need to know which specific course(s) at UCCS, MSU Denver, or PPSC you intend to take. As you consider the courses you want to request, be sure to double-check the course catalog at your desired institution to ensure you meet (or will meet) prerequisites for the course. **Appendices A, C and E** contain lists of PPSC, UCCS, and MSU Denver courses that are eligible to be considered for concurrent enrollment. This list is current as of this writing but is subject to change based on course availability and transferability.
- After the application closes, you will be notified via email as to the status of your application. If you have been accepted into a course or program, it is your responsibility to follow through with applying for the relevant course or program at the college or university.
- Please note that the grades you earn in your classes will be recorded on both your high school and college transcripts, and that college courses will impact your high school GPA. See the following for additional information:

[UCCS Concurrent Enrollment/Non-Degree Application](#)

[PPSC Placement Test Preparation Resources](#)

[Academy District 20 Administrative Policy IHCD: Concurrent Enrollment](#)

Applying for Concurrent/Dual Enrollment or “Center of Excellence” Districtwide CTE Programs

The following chart provides an overview of the programs available in the district, the grade levels at which students may participate, and the process students should follow to apply. More detailed information on each program can be found in the sections that follow. Most programs listed here use the CCS Application.

Program	Location	Type of Credit	Eligible Grade Levels	Student Costs	Application Process
ASCENT (Accelerating Students through Concurrent Enrollment)	UCCS, MSU Denver, PPSC	High School and College	13	Books, course fees, course-specific supplies	CCS Application (D20) College application/registration process *sunsetting SY 25-26
Automotive Service Technology	Liberty High School	High School	11, 12	See school fee schedule	CCS Application (D20)
Building Construction Technology	Liberty High School	High School	11, 12	See school fee schedule	CCS Application (D20)
Career Start	Pikes Peak State College	High School and College	11 and 12	N/A*	CCS Application (D20) PPSC and Career Start Application processes at the college
Certified Nurse Assistant and Emergency Medical Technician Programs	Liberty High School	High School and College (PPSC)	11 and 12 (12 th only for EMT)	student-specific supplies and course fees	CCS Application (D20)
Concurrent Enrollment	UCCS (in person), MSU Denver (online), PPSC (in person)	High School and College	9, 10, 11, 12	Books, fees, course-specific supplies	CCS Application (D20) College application/registration process
CU Succeed	Air Academy HS Aspen Valley HS Discovery Canyon HS Pine Creek HS Village HS	High School with a College Credit Option (UCCS)	9, 10, 11, 12	All tuition and fees	Registration available to students enrolled in the high schools offering programs

Dual Enrollment (CU Succeed Platinum)	University of Colorado Colorado Springs	High School and College (UCCS)	9, 10, 11, 12	Books, fees, course-specific supplies	CCS Application (D20) University application/registration process
Hairstyling, Esthetician, or Nail Technician	International Salon and Spa Academy	High School	11 and 12	Cert. exam, fees, program-specific supplies	CCS Application (D20) ISSA application/registration process
MathOnline (UCCS)	University of Colorado Colorado Springs	High School and College	11 and 12	Partial tuition, books, fees (D20 pays the community college tuition rate per credit hour)	CCS Application (D20) University application/registration process
Project Lead the Way (PLTW) Programs in Engineering and Biomedical Science	Discovery Canyon Campus High School, Air Academy High School, Pine Creek High School	High School with a College Credit Option (UCCS)	9, 10, 11, 12	All tuition and fees	Registration available to students enrolled in the high schools offering programs
Rampart Early College Academy (RECA)	Rampart High School	High School and College (UCCS)	9,10,11, 12	N/A*	High School Based Application (In most cases, students must enter the RECA program as 9 th graders)
Teacher Cadet	Discovery Canyon Campus High School, Village High School	High School with a College Credit Option (UCCS)	11 and 12	See school fee schedule	High School Based Application
TREP (Teacher Recruitment Education and Preparation)	UCCS, MSU Denver	High School and College	13-14	Books, fees, course-specific supplies	CCS Application (D20) College application /registration process

*District 20 covers the cost of tuition, books, and program-specific fees (such as lab supplies) for these programs; however, any additional costs or college fees are the responsibility of the students and/or their parents/guardians.

College Opportunities Checklist

Please review this checklist before pursuing college credit opportunities.

- ☐ Evaluate Whether You Meet Eligibility Requirements.
 - ☐ In most cases, applications to participate in postsecondary opportunities will only be approved for students who meet the following criteria:
 - ☐ No grades lower than a “C” for the previous semester and current semester of high school coursework (and college coursework when applicable).
 - ☐ No grades lower than a “B” for the previous semester and current semester in the high school content area for which the student is applying to take advanced coursework.
- ☐ On-track for graduation and not in need of remedial coursework
- ☐ Up-to-date with high school ICAP goals that are aligned to postsecondary planning.
- ☐ Meet with your School Counselor or Administrator.

Your counselor can share information about concurrent/dual enrollment and CTE courses and programs that are aligned to your postsecondary plan. Your counselor can also advise you regarding options for best meeting District 20 graduation requirements while pursuing opportunities that align with your passions.

Please keep the following District 20 Graduation Requirements in mind as you consider your college and career coursework opportunities:

Academy District 20 Graduation Requirements

Requirements	Credits	Special Notes
English	8	
Science	6	Four of the six credits must be from laboratory science classes.
Mathematics	6	All students must complete Algebra 1 and Geometry (either in middle school or in high school). All students must earn 6 math credits during grades 9-12.
Social Science	6	Social Science requirements include two required credits of U.S. History and one credit of Civics, and two required credits of *World History or another course covering Holocaust and Genocide studies as required by House Bill 20-1336.
World Language	2	High school level world language courses taken in middle school may apply to this requirement but will not count toward the requirement of 50 total credits. When applying middle school world language credits to meet this requirement, two additional core elective credits must be earned.
Core Electives	6	Core elective requirements include courses in English, world language, mathematics, science, and social science.

Physical Education	3	
Health	1	
Arts	1	Arts requirements include visual and performing arts.
Unrestricted Electives	11	Credits earned beyond the requirements listed above will count as unrestricted elective credit.
Total	50	

*Beginning with the ninth-grade class of 2024-25, World History or another course covering Holocaust and Genocide studies as required by House Bill 20-1336 will become a requirement for graduation.

- ☐ Update your Individual Career and Academic Plan (ICAP) with your Counselor.
Your counselor will examine your ICAP to approve moving forward with postsecondary or CTE ~~courses~~ or moving forward with other challenging courses. If you are approved to apply for advanced opportunities, your requested program or courses must be in alignment with your ICAP goals.
- ☐ Complete Assessment Testing.
Colleges require that students meet prerequisites prior to enrolling in courses. Talk to your counselor and the college about testing accommodations and any course prerequisites that may be required. Please access information on testing and prerequisites at the following institutions website:
 - [PPSC](#)
 - [MSU Denver](#)
 - [UCCS](#)
- ☐ Complete your District 20 Application.
Unless otherwise noted above, complete the online CCS Application. The application is due on or before April 1st for fall semester and year-long programs. Applications for courses beginning in the spring semester will be due one or before November 1st. Be sure to select the correct semester when completing the application process and note that there is a course change approval process for students who are approved for a course or program but would like to make one or more adjustments to their schedule.

Note: Programs that have application processes managed at the high school level may have different due dates and processes, so be sure to check with the school hosting the program to ensure you are meeting deadlines.

- ☐ Complete your College Application
For programs outside of District 20, students who have been approved by the district must apply to the school they plan to attend. Meet with your counselor or school administrator to make sure the application(s) is (are) completed correctly.

- ☐ Sign up for the College Opportunity Fund (if taking classes that are COF eligible)

The College Opportunity Fund (COF) stipend pays a portion of your total in-state tuition when you attend a Colorado public institution or a participating private institution. The stipend is paid on a per credit hour basis to the institution at which you are enrolled and will be deducted from the designated COF account. For students taking concurrent enrollment coursework, registering for COF is a requirement of participation. Students taking dual enrollment courses (CU Succeed, PLTW, and/or MathOnline) do not need to apply for COF unless they are also taking concurrent enrollment. Access the [COF application](#)

- ☐ Register for College Course(s) by established deadlines.

Once you have completed this checklist, you will need to register for your college course(s), pay any fees (if applicable), and purchase your textbooks. Please note that managing the application and enrollment process at the college or university is the responsibility of the student. Neither district personnel nor high school counselors have access to students' college/university accounts or portals.

Information about how to register will be available in your D20 Student Hub College and Career Button. You can access the student Hub by simply opening a browser on a D20 device or navigate there by going to www.asd20.org > Logins > Student > Student Hub.

Students should register for fall college courses by May 1st or as soon as possible based on catalog and registration availability and should register for spring college courses no later than December 1st. Failure to meet these deadlines may impact course availability and a student's ability to take sponsored college courses in a given semester.

In addition to the checklist above, please review the program-specific information for the course or program to which you are applying.

District 20 General Concurrent and Dual College Enrollment Guidelines

- A. The student should seek advice and counsel from his or her high school about pursuing college-level work.
- B. Students are expected to maintain full-time status while enrolled in a D20 high school and participating in concurrent and/or dual enrollment. This may be accomplished through a combination of high school and college courses. Students participating in college courses must enroll in a minimum number of high school courses each semester during which they participate in CE or DE. These minimums are: 9th grade, 6 classes; 10th and 11th grades, 4 classes; and 12th grade, 2 classes.
- C. The student must apply for the College Opportunity Fund (COF) before enrolling in concurrent enrollment. This can be done online with [Colorado Opportunity Fund](#).
- C. The student must authorize use of his or her COF stipend for all eligible credits. College-level credits used will be deducted from the Student's COF lifetime account. D20 will not pay tuition that could be covered by COF, so students who fail to apply for this stipend may be billed by the college or university.
- D. The student must meet the same prerequisites and course expectations as all other college students in a course, as noted in the institution of higher education's catalog and the course syllabus. If a student is approved for a course or sequence of courses but is subsequently unable to meet prerequisites at the college or university, the student's approval is presumed to be rescinded. The student may not simply enroll in a different course for which qualifications are met unless prior approval is received via a course change request.
- E. Grades earned in college courses taken through concurrent or dual enrollment will appear on the student's official high school and college transcript each semester, and all college courses will impact HS GPA as outlined in policy IKAA R.

Courses that the student completes at the college or university will be weighted on the student's high school transcript if they meet the following criteria:

- a. The student completed the course with a "C" or better.
 - b. The course is worth at least 3 credit hours.
 - c. The course is on the guaranteed transfer list for the state of Colorado, or is offered by a 4-year university partner (UCCS or MSUD).
- F. College course credits may transfer in congruence with Colorado Guaranteed Transfer (GT) Pathways or articulation agreements if the student earns a "C" or better in the course. It is the responsibility of students and families to research transferability.

- G. If the student seeks to add, drop, or withdraw from a college course, he or she must meet with the high school counselor, submit the Concurrent/Dual Enrollment Course Change Request Form, and complete the drop/withdrawal process at the college or university. Only courses approved through the initial application, or the Course Change Request process will be sponsored. If a student enrolls in any class that is not approved by D20, the course will not be sponsored, and the student/family will be responsible for any tuition, fees, or other expenses.
- H. If the student receives a grade of D or F or withdraws from a course after the college drop deadline the D/F/WF grade will appear on the student's high school and college transcripts.
- I. Students who receive a D, F, or W in a college course may not be eligible to continue with district-sponsored college coursework in subsequent semesters.
- J. The student is responsible for applying for admission with the college, registering for college courses, and monitoring progress.
- K. Parents/Guardians will have no access to the student's college records, including grades, attendance, and disciplinary actions unless the student has signed the appropriate waiver, which may only be obtained from the college.
- L. For an approved Concurrent Enrollment student, D20 shall pay, directly to the institution of higher learning, the tuition for online and/or on-campus courses (please note that online CE courses are typically only approvable at MSU Denver). For an approved Dual Enrollment student, D20 shall only pay directly to the institution of higher learning, the prevailing community college on-campus tuition rate with COF applied. This rate applies for online and on-campus courses and does not include fees, books, supplies, or any tuition costs more than the rate mentioned above.
- M. The student shall pay to the institution of higher learning any *additional costs not covered by D20* to include campus fees, course fees, books, supplies, and tuition beyond what is covered by D20 as outlined above. The student shall also pay all tuition and fees for any courses not specifically approved for concurrent/dual enrollment via the application or course change request process.

Special Notes for Home School Students and Families

Homeschool families are encouraged to access concurrent and dual enrollment as part of their homeschool program. Homeschool students who wish to access District supported college courses are limited to 3-11 total credit hours per semester (fall and spring) as defined by selected IHE. Homeschool students wishing to access dual enrollment at any time during the academic year must:

- Have on file a Notice of Intent (NOI) to Homeschool with the District before October 1 of the school year.

- Prior to October 1, enroll in and attend a District 20 Homeschool Academy High School Enrichment Program.
- Complete the College and Career Services Application by established District deadlines. The application must include the specific courses the student hopes to pursue.
- Enroll in dual enrollment courses and meet all postsecondary requirements.

Homeschooled students are only eligible for concurrent/dual enrollment during their 9th-12th grade years. 5th year homeschooled high school students are not eligible for traditional concurrent enrollment.

Homeschooled students may apply for participation in TREP and will be given the same consideration as other District 20 students. In order to be approved for TREP, homeschool students must provide evidence of the following:

- Completion of at least one "educator pathway" course during the 12th grade year for TREP.
- Completion of all high school graduation requirements, per the curriculum and standards of the homeschool.
- Intent to be "retained" in the 12th grade for the duration of the two TREP years and agreement to issue the high school diploma only after the two TREP years are complete.

Homeschooled students who are approved for TREP must provide copies of their high school and college transcripts to District 20 both at the time of application and at the end of the TREP year(s).

Homeschool students are only eligible for part-time TREP participation (3-11 credit hours funded each semester).

High School Credit and Weighting for College Coursework

College coursework taken by high school students will be transcribed at the high school level using the following conversion:

College Credit Hours	High School Credits
1-2	1
3+	2

District 20 policy regarding weighted credit for college courses was updated on July 1, 2023. College coursework on the Guaranteed Transfer (GT) list for the state of Colorado, college courses at the 300/3000 level or higher (or equivalent), and courses offered by a four-year university shall be weighted except if they fall into one or more of the following categories:

- A developmental or remedial course
- A course less than 3 credit hours of college credit
- Physical education courses, outdoor education courses, or recreational education courses

Rampart Early College Academy (at Rampart High School)

Rampart Early College Academy (RECA) is an innovative answer to students desiring to be in a rigorous academic program, earning college credit which can be used to meet post-secondary degree requirements, while still being a regular high school student participating in sports, band, theater, choir, career & technical education (CTE) programs, clubs, etc. Many “early college” programs throughout the Pikes Peak region require students desiring to take college coursework integrated into their high school program, to enroll in an alternative school setting separate from their comprehensive high school. RECA will enable its students to be regular Rampart High School students, with access to the other academic programs and co/extra-curricular activities.

Students accepted into RECA may have the opportunity to earn up to 30 college credits through the University of Colorado Colorado Springs during their four years in high school with no tuition costs. This will help students meet many undergraduate education requirements for most bachelor’s degrees before ever graduating from high school. Students will have access to Rampart’s AP courses in addition to concurrent and dual enrollment through UCCS, MSU Denver, and PPSC.

A critical component to RECA is building a sense of community and support. All RECA students will also take part in AVID—Advanced Via Individual Determination program courses. AVID develops study skills, provides academic support, college and career exploration, and college preparation. A gradual increase in college coursework over a student’s high school experience, with AVID support, is a proven recipe for academic success and college preparation!

Application process for Rampart’s AVID/RECA program:

For students who attend Mountain Ridge Middle School, there will be an informational letter sent home to current 8th graders with the opportunity to attend a parent and student AVID/RECA information night in early January. For those who are interested, the parent/guardian will complete the application provided by RHS. and Rampart’s AVID/RECA team will conduct brief interviews at Mountain Ridge at the end of January. Program acceptance letters will be sent to students by March 1st.

For School Choice students who do not attend Mountain Ridge, please fill out the AVID/RECA application and email the application to the AVID Coordinator, Mrs. Brubaker (bre.brubaker@asd20.org). If Rampart High School is not a student’s home school, please also complete the district’s [School Choice](#) process. Program acceptance will be communicated by March 1st.

Teacher Recruitment Education and Preparation (TREP) Program

The Teacher Recruitment Education and Preparation (called TREP) program is an opportunity for graduating seniors pursuing an educator career pathway to earn up to two more years of tuition-free college. **TREP is available through University of Colorado Colorado Springs or Metropolitan State University of Denver.**

Eligibility

- Currently in 12th grade and on track for graduation with a minimum GPA of 2.00 in college courses. Retained 5th year seniors do not qualify.
- Must have taken at least one of the college courses listed in the Educator Pathway listing during the senior year or have transcribed UCCS credit for one or both Teacher Cadet courses offered through D20. Students who qualify for TREP through Teacher Cadet are only eligible to apply for TREP participation at UCCS.
- Must have an Individual Career and Academic Plan (ICAP) that reflects the teacher/educator pathway prior to declaring intent to participate in TREP.
- Must declare an approved teacher/educator major at UCCS or MSU Denver.
- Must not need developmental courses for the selected major.
- Approved by high school and District 20 College and Career Services.
- 2-year limit – No prior TREP participation before the initial entry year.

TREP Educator Pathway Coursework

Early Childhood Educators:

- ECE1011: Intro to Early Childhood Education
- ECE2102: Working with Families and Communities
- ECE2381: Child Growth and Development

All Other Licensure Areas:

- EDU2211: Intro to Education
- EDU2341: Multicultural Education
- PSY2440: Human Growth and Development OR PSY2441: Child Development

All Licensure Areas:

- EDU2088: Practicum 2 OR EDU 2215: Intro to Education Techniques
- EDU2611: Teaching, learning, and technology

All Licensure Areas:

- ART1110: Art Appreciation OR MUS1020: Music appreciation OR THE1005: Theater Appreciation OR DAN1025: Dance Appreciation (GT-AH1) OR PHI1012: Ethics
- ENG1021: English Composition 1 (GT-CO1)
- ENG1022: English Composition 2 (GT-CO2)
- GEO1005: World Regional Geography OR GEO1006: Human Geography (GT-SS2)

- HIS1210: US History to Reconstruction OR HIS1220: US History Since Civil War (GT-HI1)
- LIT1015: Intro to Literature (GT-AH2) OR LIT2055: Children's Literature (GT-AH2)
- POS2020: Introduction to Political Science OR POS1011: American Government (GT-SS1)
- Any two GTSC-1 OR any GTSC-1 plus GTSC-2

Mathematics Courses Defined by Licensure Area:

- Early Childhood Education: MAT1240: Mathematics for the Liberal Arts OR MAT1260: Intro to Stats
- Elementary Education: MAT1260: Intro to Stats OR MAT1220/1230: Integrated Math 1-2
- Secondary Humanities: MAT1260: Intro to Stats
- Secondary Math: MAT2410: Calculus 1
- Secondary Science: MAT1260: Intro to Stats OR MAT1340: College Algebra
- K-12 Fine Arts: MAT1260: Intro to Stats
- SPED: MAT1240: Mathematics for the Liberal Arts OR MAT1220/1230: Integrated Math 1-2

The courses above are the full slate of courses that candidates complete. All pathway courses are available to candidates to complete as best fits their situation and course availability through a Colorado Community College System (CCCS) or four-year partner. These courses are transferable from CCCS to most four-year institutions with approved undergraduate education programs, though candidates should consult with their advisors when making decisions about what courses to take and when. Please note that the course numbers listed here are from within the community college system and may change depending on the institution to which one transfers. Also note that to be eligible for TREP, candidates must complete at least one of the pathway courses above during their 12th grade year.

Please note: All TREP applicants should also complete their FAFSA and apply to their program/colleges of choice.

If students qualify for financial aid from their program/schools of choice that exceeds TREP tuition, students should accept financial aid, which might include textbooks, and forfeit their TREP slots to students on the TREP waitlist.

- TREP qualifying courses must align with the Educator Pathway Coursework shown above (please note that course numbers may vary between institutions of higher education. Please contact College and Career Services with any questions about whether courses you have taken are eligible for TREP qualifications).
- Diplomas and Transcripts awarded at the end of TREP participation and dated the end of the TREP year; students participate in graduation activities with their class; TREP grades are included in the high school GPA.
- District 20 pays college tuition at the community college rate at either UCCS or MSU Denver
 - Full-Time = 12+ college credits each semester
 - Part-time = 3-11 college credits each semester

TREP slots are limited, and the priority application deadline is January 31st. If there are additional slots available after that date, the application may remain open until April 1st.

CU Succeed at a D20 High School

Students may earn college credit for successfully completing select high school academic courses. Some courses may be guaranteed to transfer to public institutions of higher education within Colorado. The student is responsible to research transferability, but a list of courses that are currently on the state guaranteed transfer list is available in **Appendix C**. In addition, a list of the courses offered at D20 high schools via CU Succeed is available in **Appendix D**.

High school teachers who are approved as University of Colorado instructors receive student registration instructions from the university for their approved courses. Teachers will distribute these guidelines to their students in the Spring for year-long classes. Students must register by UCCS's published deadline (usually in mid-March) to receive college credit. These college credits will only be recorded on the UCCS transcript, which students can request from the university.

Cost: Tuition and fees are the responsibility of students and parents.

Deadlines: These vary and are published in the registration instructions. For year-long courses, the registration deadline is mid-March, and the withdrawal deadline (with penalty) is early May.

See the following for additional information:

UCCS Pre-Collegiate Development Program

For more than 35 years, the University of Colorado Colorado Springs (UCCS) Pre-Collegiate Development Program has offered a free, multi-year academic enrichment program for prioritized middle and high school students. Its purpose is to motivate and prepare scholars from first-generation, low-income, and military connected backgrounds in their pursuit of postsecondary goals. Pre-Collegiate prepares scholars to understand, enroll, and be successful in post-secondary education and in their chosen careers.

The high school program during the academic year consists of after school workshops. During these workshops, highly trained and experienced college students serve as instructors and mentors. The workshops focus on the development of valuable life skills such as financial literacy, career exploration, financial aid, scholarship opportunities, and navigating the postsecondary world. Multiple workshop topics and days are available, and students may choose to attend those that interest them and fit in with their schedules. All that is required is that they attend a minimum of one per month.

Pre-Collegiate also gives scholars the opportunity to participate in the College Experience Program. Through this program, they have opportunities to explore college and university campuses in the Pikes Peak region. During the tours, they hear from college students, faculty, and staff, and learn how to compare their options so they can make informed decisions later.

Everything the program offers is free of charge, but scholars and families are asked to commit to remaining in the program for the duration of their high school careers and communicate with Pre-Collegiate when they cannot attend programming. For more information, visit the [Pre-Collegiate Development Program's website](#).

Outside College Credit from Non-Sponsored District 20 Dual Enrollment

Students may earn college credits outside of the concurrent and dual enrollment structures sponsored by District 20. Courses taken through District 20 sponsored concurrent and dual enrollment are not subject to the guidelines below. Students must use the form in D20 Administrative Policy IHADB E2 to apply for outside college level course(s) to be applied to their high school transcript. For high school level courses, students must submit the Outside High School Credit Application (IHADB E1).

1. College courses taken outside of the concurrent/dual enrollment structure must be approved by D20 College and Career Services prior to student enrollment. Courses completed without prior approval may be evaluated but are not guaranteed to be added to the high school transcript and may not be counted toward graduation requirements.
2. A student must be enrolled in District 20 as a full-time student before requesting credit from outside college courses.
3. All credit must be obtained from accredited colleges and/or universities. Requests for credits from non-accredited colleges or universities will be denied.
4. College courses taken outside of the concurrent/dual enrollment structure are not funded by District 20 or any individual high school.
5. For approved outside college credit, final decisions regarding the type and amount of high school credit and whether the course qualifies for GPA weight, are made by College and Career Services. (See policy IAAA-R Grading/Assessment Systems in the High Schools Procedure).

Once an approved outside college course is complete, it is the student's responsibility to provide College and Career Services with a transcript from the college or university that reports the final grade for the course. Approved courses will not be added to student transcripts without this documentation.

To apply for outside college credit, access the application form on the College and Career page of the D20 website.

See **Appendices B, C, and E** for lists of courses from Pikes Peak Community College, the University of Colorado Colorado Springs, and Metropolitan State University of Denver that are on the state guaranteed-to-transfer list and may be considered for outside agency credit. These are not the only courses eligible for such credit, but they provide a good guide as to the types of courses that are approvable.

University of Colorado Online (CU Succeed Platinum)

College-ready high school students can enroll in a college course that is offered online through the CU system to earn high school and college credit. Some courses may be guaranteed to transfer to public institutions of higher education within Colorado. The student is responsible for researching transferability. A list of courses that are currently on the state guaranteed transfer list is available in **Appendix C**.

The following courses are tentatively scheduled for the 2024-2025 and 2025-2026 academic years:

UCCS Online Courses: 2024-2025

Fall	Spring
ANTH1030: Introduction to Biological Anthropology	ANTH1040: Introduction to Cultural Anthropology
ECON1010: Microeconomics	ECON2020: Macroeconomics
PSC1110: American Political System	PHIL1000: Introduction to Philosophy
CS1000: Computer Literacy and Office Applications	
COMM1020: Interpersonal Communications	COMM2100: Public Speaking

UCCS Online Courses: 2025-2026

Fall	Spring
GES1990: Introduction to Human Geography	PES1000: Physics for Everyday Life
BIOL1000: Biology in the Modern World	ENGL1500: Introduction to Literature for Non-Majors
SOC1110: Introduction to Sociology	BUAD1000: Introduction to Business
INDS1050: Quantitative and Qualitative Reasoning Skills	PSY1000: Introduction to Psychology
HIST1530: US Emergence of Modern America, 1865-1920	HIST1540: US Recent America, 1918 to Present

See the following for additional information:

MathOnline University of Colorado Colorado Springs (UCCS)

MathOnline allows qualified high school students to enroll for credit in UCCS courses without having to physically be on campus. This program is specifically for students who are very advanced in mathematics and no longer have math courses available to them at the high school level. Most MathOnline courses run synchronous to the corresponding math courses (Fall and Spring semesters). This means that students are given access to the course through a dual video feed, one that captures the whiteboard and the other that focuses on the entire front of the class. This gives a very realistic feeling to the lectures. Students can attend lectures virtually in real time or watch the recording at their convenience.

The following courses offered through MathOnline are options for D20 students:

- MATH1360: Calculus II
- MATH2350: Calculus III
- MATH2150: Discrete Mathematics
- MATH3110: Theory of Numbers
- MATH3130: Introduction to Linear Algebra
- MATH3400: Introduction to Differential Equations
- MATH3410: Introduction to Analysis
- MATH3810: Introduction to Probability and Statistics

Please note that there is an out-of-pocket cost for students who enroll in MathOnline courses. D20 will pay the community college rate per credit hour for MathOnline courses, but the difference between that tuition rate and the UCCS tuition is the responsibility of students and families. In addition, families are responsible for any books and fees.

See the following for additional information:

[Math Online: College of Letters, Arts, & Sciences](#)

[MathOnline Course Schedule](#)

College Credit for International Baccalaureate (IB) Courses

The aim of IB programs is to develop internationally minded people who recognize their common humanity and shared guardianship of the planet. Central to this aim is international mindedness. International mindedness is a multifaceted concept that captures a way of thinking, being, and acting characterized by an openness to the world and a recognition of our deep interconnectedness to others.

IB has four specific programs: the Diploma Programme (DP) which provide a challenging yet balanced education that facilitates geographical mobility by providing an internationally recognized university-entrance qualification, but that also serves the deeper purpose of promoting intercultural understanding and respect. The Middle Years Programme (MYP) and the Primary Years Programme (PYP) is the IB identified continuum of international education for students aged 3 to 19. Last, the Career-related Programme (CP) provides a choice of international education pathways for 16- to 19-year-old students.

Students may earn college credit for IB courses, but the amount of credit varies. Some colleges only award college credit to students who hold a full IB diploma, while most others award credit for individual exam scores (similar to AP). Please consult with your counselor and the desired college/university for their policy on college credit for IB courses.

IB programs are offered at the following Academy District 20 high schools:

[Discovery Canyon Campus High School IB](#)

[Rampart High School IB/DP](#)

See the following for additional information: [IB Program Website](#)

College Credit for Advanced Placement (AP) Courses

The Advanced Placement Program enables willing and academically prepared students to pursue college-level studies while still in high school. The program consists of college-level courses developed by the AP Program that high schools can choose to offer, and corresponding exams that are administered once a year.

Many colleges offer credit for AP scores. Suppose a student earned a “4” on the AP Biology Exam, and the college they will attend grants them credit for the equivalent college course. That means the student will walk into college with credit under their belt—before they even take their first class there.

Please contact your desired college to see if they take AP credits and if so, what their minimum exam scores are. Please also reference your high school's course catalog for current AP course offerings or refer to the table on the following page.

See the following for additional information: [CollegeBoard AP website](#)

Appendix D: Courses Currently Authorized for PLTW or CU Succeed Credit at D20 High Schools

Program	High School	Teacher First Name	Teacher Last Name	Subject	Catalog	Class Name	Credits	Meets HLC Criteria after Sept 1, 2025
CU	Air Academy High School	Linda	Aragon	ASL	1010	American Sign Language I	4	Yes
CU	Air Academy High School	Lindsay	Bornhofen	BUAD	1000	Intro to Business	3	Yes
PLTW	Air Academy High School	Jason	Buhler	ENGR	1502	Principles of Engineering	3	Covered by College of Engineering agreement
PLTW	Air Academy High School	Jason	Buhler	ENGR	1503	Introduction to Engineering Design	2	Covered by College of Engineering agreement
PLTW	Air Academy High School	Jason	Buhler	ENGR	1504	Aerospace Engineering	3	Covered by College of Engineering agreement
PLTW	Air Academy High School	Jason	Buhler	ENGR	1508	Engineering Design & Development	3	Covered by College of Engineering agreement
CU	Air Academy High School	Jason	Catron	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	No
CU	Air Academy High School	Amy	Cofield	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	No
CU	Air Academy High School	Jennifer	Gunderson	ASL	1010	American Sign Language I	4	Yes
CU	Air Academy	Jennifer	Gunderson	ASL	2110	American Sign Language III	4	Yes

	High School							
CU	Air Academy High School	Aly	Johnson	BUAD	1000	Intro to Business	3	Yes
CU	Air Academy High School	Aly	Johnson	COMM	2010	Oral Communication in the Workplace	3	Yes
PLTW	Air Academy High School	Adam	Truex	ENGR	1411	Digital Electronics	2	Covered by College of Engineering agreement
PLTW	Air Academy High School	Adam	Truex	ENGR	1502	Principles of Engineering	3	Covered by College of Engineering agreement
PLTW	Air Academy High School	Adam	Truex	ENGR	1503	Introduction to Engineering Design	2	Covered by College of Engineering agreement
PLTW	Air Academy High School	Adam	Truex	ENGR	1506	Civil Engineering & Architecture	3	Covered by College of Engineering agreement
PLTW	Air Academy High School	Adam	Truex	ENGR	1507	Computer Integrated Manufacturing	3	Covered by College of Engineering agreement
CU	Air Academy High School	Linda	Aragon	ASL	2110	American Sign Language III	4	Yes
CU	Air Academy High School	Amy	Cofield	MATH	1350	Calculus I (BC)	4	No
CU	Air Academy High School	Amy	Cofield	MATH	1350	Calculus I (AB)	4	No
CU	Air Academy High School	Amy	Cofield	MATH	1360	Calculus II (BC)	4	No

CU	Air Academy High School	Natalie	Thomas (Paluso)	ASL	1010	American Sign Language I	4	Yes
CU	Air Academy High School	Natalie	Thomas (Paluso)	ASL	1020	American Sign Language II	4	Yes
CU	Air Academy High School	Natalie	Thomas (Paluso)	ASL	2120	American Sign Language IV	4	Yes
PLTW	Discovery Canyon Campus High School	Jonathan	Bluff	ENGR	1411	Digital Electronics	2	Covered by College of Engineering agreement
PLTW	Discovery Canyon Campus High School	Jonathan	Bluff	ENGR	1503	Introduction to Engineering Design	2	Covered by College of Engineering agreement
PLTW	Discovery Canyon Campus High School	Jonathan	Bluff	ENGR	1504	Aerospace Engineering	3	Covered by College of Engineering agreement
PLTW	Discovery Canyon Campus High School	Mitchell	Burke	BIOL	1011	Principles of Biomedical Science	3	Covered by Biology Dept agreement
PLTW	Discovery Canyon Campus High School	Mitchell	Burke	BIOL	1012	Human Body Systems	3	Covered by Biology Dept agreement
PLTW	Discovery Canyon Campus High School	Mitchell	Burke	BIOL	1013	Medical Interventions	3	Covered by Biology Dept agreement
PLTW	Discovery Canyon Campus High School	Mitchell	Burke	BIOL	2040	Biomedical Innovation	3	Covered by Biology Dept agreement

PLTW	Discovery Canyon Campus High School	Mark	Grohman	ENGR	1512	Computer Science Essentials	3	Covered by College of Engineering agreement
PLTW	Discovery Canyon Campus High School	Mark	Grohman	ENGR	1513	Cybersecurity	3	Covered by College of Engineering agreement
CU	Discovery Canyon Campus High School	Amy	Keating	LEAD	1000	American Foundations of Education	3	Yes
PLTW	Discovery Canyon Campus High School	Josh	Kinney	ENGR	1502	Principles of Engineering	3	Covered by College of Engineering agreement
PLTW	Discovery Canyon Campus High School	Josh	Kinney	ENGR	1503	Introduction to Engineering Design	2	Covered by College of Engineering agreement
PLTW	Discovery Canyon Campus High School	Josh	Kinney	ENGR	1506	Civil Engineering & Architecture	3	Covered by College of Engineering agreement
PLTW	Discovery Canyon Campus High School	Josh	Kinney	ENGR	1508	Engineering Design & Development	3	Covered by College of Engineering agreement
CU	Discovery Canyon Campus High School	Katie	O'Hare (Uebelhoer)	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	No
CU	Discovery Canyon Campus High School	Katie	O'Hare (Uebelhoer)	MATH	2810	Intro to Basic Statistics	3	No

CU	Discovery Canyon Campus High School	Kathryn (Katy)	Snider	EDUC	2000	Intro to Educational Psychology	3	Yes
CU	Discovery Canyon Campus High School	Kathryn (Katy)	Snider	LEAD	1000	American Foundations of Education	3	Yes
CU	Discovery Canyon Campus High School	Kathryn (Katy)	Snider	PES	1000	Physics in Everyday Life	3	No
CU	Discovery Canyon Campus High School	Janelle	Watkins (Adams)	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	No
CU	Discovery Canyon Campus High School	Terrie	Watts	BIOL	1300	General Biology: Organismic Biology	3	May no longer be offering this class at the school
CU	Discovery Canyon Campus High School	Terrie	Watts	BIOL	1310	General Biology: Organismic Biology Laboratory	1	May no longer be offering this class at the school
CU	Discovery Canyon Campus High School	Terrie	Watts	CJ	1002	CSI: Fact or Fantasy?	3	Yes
CU	Discovery Canyon Campus High School	Terrie	Watts	CJ	2030	Intro to Forensic Studies	3	Yes
CU	Pine Creek High School	Tyler (Ty)	Allen	PSC	1100	The American Political System	3	Yes
CU	Pine Creek	Chelsea	Corbitt	MATH	1050	Elementary Functions of	4	Yes

	High School					Calculus (Pre-Calculus)		
CU	Pine Creek High School	Tiffanie	Davis	VA	1030	Digital Foundations	3	Yes
CU	Pine Creek High School	Tiffanie	Davis	VA	2150	Beginning Digital Photography	3	Yes
CU	Pine Creek High School	Lindsay	Edy	COMM	2010	Oral Communication in the Workplace	3	Yes
CU	Pine Creek High School	Rudilee	Gabel	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	Yes
PLTW	Pine Creek High School	Rebecca	Keith	BIOL	1011	Principles of Biomedical Science	3	Covered by Biology Dept agreement
PLTW	Pine Creek High School	Rebecca	Keith	BIOL	1012	Human Body Systems	3	Covered by Biology Dept agreement
PLTW	Pine Creek High School	Rebecca	Keith	BIOL	1013	Medical Interventions	3	Covered by Biology Dept agreement
CU	Pine Creek High School	Lisa	McCone	PSY	1000	General Psychology	3	No
CU	Pine Creek High School	Justin	Morrill	ENGL	1500	Introduction to Literature for Non-Majors	3	Yes
CU	Pine Creek High School	Justin	Morrill	ENGL	1700	Special Topics in Literary Explorations	3	Yes
CU	Pine Creek High School	Kristiann	Saunders	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	Yes

CU	Pine Creek High School	Jeremy	Saunders	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	Yes
PLTW	Pine Creek High School	Kelly	Newcomb	BIOL	1012	Human Body Systems	3	Covered by Biology Dept agreement
PLTW	Pine Creek High School	Kelly	Newcomb	BIOL	1011	Principles of Biomedical Science	3	Covered by Biology Dept agreement
CU	Pine Creek High School	April	Pierce	MATH	2350	Calculus III	4	Yes
CU	Rampart High School	Greg	Andersen	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	No, but retired
CU	Rampart High School	Robert (Bobby)	Brown	PSC	1100	The American Political System	3	Yes
CU	Rampart High School	Michelle	Robbins	THTR	1000	Intro to Theater	3	Yes
CU	Rampart High School	Alma	Sicinski	ASL	1010	American Sign Language I	4	Yes
CU	Rampart High School	Alma	Sicinski	ASL	1020	American Sign Language II	4	Yes
CU	Rampart High School	Alma	Sicinski	ASL	2110	American Sign Language III	4	Yes
CU	Village High School	Debbie	Fenlason	ASL	1010	American Sign Language I	4	Yes
CU	Village High School	Debbie	Fenlason	ASL	1020	American Sign Language II	4	Yes
CU	Village High School	Debbie	Fenlason	ASL	2110	American Sign Language III	4	Yes
CU	Village High School	Debbie	Fenlason	ASL	2120	American Sign Language IV	4	Yes

CU	Village High School	Karlie	Goretski	MATH	1050	Elementary Functions of Calculus (Pre-Calculus)	4	Yes
CU	Village High School	Laurie	Hughes	BUAD	1000	Introduction to Business	3	Yes
CU	Village High School	Katie	Redinger	EDUC	2000	Intro to Educational Psychology	3	Yes
CU	Village High School	Katie	Redinger	LEAD	1000	American Foundations of Education	3	Yes
CU	Village High School	Jason	Smits	MATH	2810	Intro to Basic Statistics	3	No
CU	Village High School	Thaddeus	Young	ASL	1010	American Sign Language I	4	Yes
CU	Village High School	Thaddeus	Young	ASL	1020	American Sign Language II	4	Yes
CU	Village High School	Thaddeus	Young	ASL	2120	American Sign Language III	4	Yes

Appendix E: Metropolitan State University of Denver Courses that are Guaranteed to Transfer and Approved for Weighted Outside Agency Credit

Course Prefix	Course ID	Title	College Credits	Weighted High School Credits	Type of HS Credit (Where two options exist, the awarded credit will be based on the prefix transcribed at the university)
AAS	1010	Introduction to Africana Studies	3	2	Social Science
AAS/CHS/HIS	1150	Multicultural America	3	2	Social Science
AAS/HIS	1130/1940	Survey of African History	3	2	Social Science
ANT	1010	Introduction to Biological Anthropology	3	2	Lab Science
ANT	2330	Cross-Cultural Communication	3	2	Core Elective
ANT/ARTH	2700	Museum Studies	3	2	Social Science
ANT/ENG	1400/1150	Introduction to Folklore	3	2	Social Science/English
ANT/HON	1310/1311	Introduction to Cultural Anthropology	3	2	Social Science
ARTH	2600	Reading and Writing Visual Culture	3	2	Core Elective
ARTH/HON	1500	Art and Visual Literacy	3	2	Core Elective
AST	1040	Introduction to Astronomy--Solar System	4	2	Science
AST	1050	Introduction to Astronomy--Stars and Galaxies	4	2	Science
CET/MET/EET	1040	Introduction to Engineering	3	2	Science
CHE	1010	Chemistry and Society	3	2	Science
CHE	1100/1150	Principles of Chemistry/Principles of Chemistry Lab	4	2	Lab Science

CHE	1800/1801	General Chemistry I/General Chemistry I Lab	4	2	Lab Science
CHE	1810/1811	General Chemistry II/General Chemistry II Lab	4	2	Lab Science
CHS/ENG	2010/2410	Survey of Chicana/o Literature	3	2	English
CHS/HON	1000/1003	Introduction to Chicana/o Studies	3	2	Social Science
CJC	1010	Introduction to Criminal Justice System	3	2	Core Elective
COMM	2200	Introduction to Interpersonal Communication	3	2	Core Elective
COMM	2300	Introduction to Organizational Communication	3	2	Core Elective
ECO/HON	2010	Principles of Macroeconomics	3	2	Social Science
ECO/HON	2020	Principles of Microeconomics	3	2	Social Science
EDS	1001	Educational (In)Equality in the 21st Century	3	2	Core Elective
ENG	1009	Stretch Composing Arguments B	3	2	English
ENG	1010	Composing Arguments	3	2	English
ENG	1020	Research and Argument Writing	3	2	English
ENG	1021	Honors Research and Argument Writing	3	2	English
ENG	1100	Introduction to Literature	3	2	English
ENG	2270	Monsters and Monstrosity	3	2	English
ENG	2460	Introduction to Children's Literature	3	2	English
ENG	2500	Introduction to Creative Writing	3	2	English

ENG	2513	Disability Rhetorics	3	2	English
ENG	2850	International Film	3	2	English
ENG	3525	Scholarly Writing	3	2	English
ENG	3526	Writing in the Sciences	3	2	English
ENG	3527	Professional Writing	3	2	English
ENV	1200	Introduction to Environmental Science	3	2	Science
GEG	1000	World Regional Geography	3	2	Social Science
GEG	1100	Introduction to Physical Geography	3	2	Social Science
GEG	1300	Introduction to Human Geography	3	2	Social Science
