Introduction

Public school students have certain rights guaranteed by the constitution and laws of Colorado as well as the United States of America. These rights are not the same as adults because the school is a special setting. The law provides that school officials need flexibility to control student behavior in the schools and at school activities, even possibly for actions that occur off-campus, on weekends or during the summer, if the actions have a nexus to school or are detrimental to the welfare of students or staff at the school. However, students do have numerous protections from undue censorship, arbitrary actions of school staff members and elected officials, and unlawful search and seizure, among other things.

This handbook informs you of your rights and your responsibilities as an Academy District 20 student. It will help you be a successful student and citizen in our District. Please read it carefully and ask questions of your principal, your counselor, or your teachers if you do not understand.

Academic Honesty

Honesty and integrity are two of the Cornerstones of Creek Character, and as such, we expect all Pine Creek students to uphold these values. Grades and learning are only valid when students engage in their studies honestly and demonstrate integrity in following assignment guidelines and the appropriate citation of source material. Plagiarism (failing to properly acknowledge sources in any work) and cheating (attempting or aiding in the attempt to receive undeserved credit or gain an unfair advantage) violate the Academic Honesty Code of Conduct.

Consequences

The minimum consequence for violating the Academic Honesty Code of Conduct is a zero on the assignment (homework, classwork, project, quiz, presentation, or exam), a parent contact, and a referral to the Dean's Office. The incident will be included in the student's behavior record. Depending on the student's history of misconduct, the intent, and the severity of the infraction, additional disciplinary action may be taken to include, but not limited to, detention, suspension, and removal from the class with a failing grade.

Academic Rights

To function well in the classroom, you must have a clear idea of what the teachers expect of you. Therefore, you have a right to know exactly what the requirements are for each course in which you are enrolled. If the course requirements seem unclear to you, or if you have questions, you have not only a right but also an obligation to yourself, your fellow classmates, and to your teacher, to ask for clarification.

Academy District 20 Mission Statement

The mission of Academy School District 20 is to educate and inspire students to thrive.

Asbestos Hazard Emergency Response Act (AHERA) Annual Legal Notification:

In accordance with the United States Environmental Protection Agency's Asbestos Hazard Emergency Response Act, the District has Asbestos Management Plans available for review at each school and at Facilities Management, 10221 Lexington Dr., Colorado Springs, CO 80920. Contact the Director for Facilities with any questions. Telephone: 719-234-1510.

Athletics

See the Parent/Athlete Handbook on the [Pine Creek \(Athletics\)](#) for information regarding athletic teams. If you have questions about NCAA eligibility, call the College/Career Counselor.

Assessments (administrative policy [IKA](#))

State and federal laws require District students to take standardized assessments in the instructional areas of English language arts, math and science. If a student's parent/guardian chooses to opt the student out of taking a state assessment, the District shall not prohibit the student from participating in an activity, or receiving any other form of reward, that the District provides to students for participating in the state assessment. C.R.S. § 22-7-1013 (8)(b).

Attendance and Truancy (administrative policies [JE](#), [JH](#), [JHB](#)):

Daily attendance at school is a critical factor in school success. Students are expected to arrive at school each day on time, ready to learn. It is difficult to replace the learning that occurs in the classroom through the exchange of ideas with study outside the classroom. Excessive absences and/or tardies, whether excused or unexcused, may have a negative effect on a student's learning and grades.

Colorado law requires every student who is age six by August 1 and under 17 to attend school a certain number of hours [C.R.S. § 22-33-104(1)(a)]. Parents have a legal obligation to ensure that every child under their care and supervision receives adequate education and training [C.R.S. § 22-33-104(5)(a)].

Per District policy [JE](#) and state law, excused absences are as follows:

1. Absences approved by the principal or designee.
2. Absences due to temporary illness or injury.
3. Absences for an extended period of time due to physical, mental or emotional disabilities.
4. Absences due to being in the custody of the court or law enforcement authorities.

If an absence does not fall into one of the above categories, it will be considered unexcused. Medical notes may be requested if a student has excessive absences.

State statute defines any student who has four unexcused absences in a month or ten unexcused absences in a school year as habitually truant. [Administrative policy [JE](#) and C.R.S § 22-33- 102(3.5)]. Be aware that the District will first take steps to work with families to reduce truancy, but that we partner with local juvenile courts to intervene and address "habitual truancy." When a student has an excessive number of absences, whether excused or unexcused, they negatively impact the student's academic success. The principal may identify a student who is absent 10% of a quarter, even if the absences are excused, as "chronically absent." [Administrative policy [JH](#), Student Absences and Excuses]. Legal action may be taken by school administrators if parents and students fail to follow compulsory attendance laws [Administrative policy [JHB](#), Truancy].

Excused Absences

Absences must be cleared **within 48 hours** by a parent/guardian. Call the grade-level secretary to excuse absences. Mikayla Frie (9th & 11th grades) 719-234-2643 or Sabra Winters (10th & 12th) 719-234-2635

Leaving Campus During the School Day

Parent permission is required before permission to leave the building will be given to students. Students who leave school during the day due to illness or appointments **must check out through the attendance office prior to leaving the building.**

Tardies

1. Definition

Tardiness is defined as the appearance of a student without proper excuse after the scheduled time that a class begins. Parents/guardians will be notified (*via IC or email*) of all penalties regarding tardiness. Tardiness is disruptive to the educational environment. Because of the disruptive nature of tardiness and the detrimental effect upon the rights of the non-tardy student to uninterrupted learning, appropriate penalties may be imposed for excessive tardiness.

2. Identification/Communication

Parent/Guardians are limited to excusing (**through the Attendance Office**) three (3) tardies per semester, per course. Each additional tardy must be excused through the grade level administrator/designee. Teachers are expected to establish appropriate penalties for all students who are tardy to their classes and to enforce the tardy policy. Failure of a student to cooperate with a teacher may result in a disciplinary referral and possible action for insubordination. Students missing fewer than forty-five (45) minutes are considered tardy; students missing forty-five (45) minutes or more of a class are considered absent.

Teachers will communicate with parents/guardians regarding the student's tardiness. Generally, the initial communication will be by email from the teacher to the parent/guardian, according to the schedule in chart below. Students are expected to be on time and ready to learn for all classes. This includes students returning from lunch. Because of the disruptive nature of tardies and detrimental effect on the educational environment, students who are tardy will receive appropriate school discipline. Specifically, students who return late from lunch may receive a lunch detention for the following day.

3. Excused Tardiness

In an unavoidable situation, a student detained by another teacher or administrator would not be considered tardy provided that the teacher or administrator gives the student a pass to enter the next class. Teachers will honor passes presented in accordance with this policy.

4. Unexcused Tardies

The following are examples of unexcused tardies:

- Woke up late
- There was a lot of traffic
- Parents dropped me off late
- We have 10 extra minutes before PE class starts
- There was a long line in the restroom
- I was at the vending machine
- I forgot my phone/wallet in my car
- I was waiting for my counselor

The provisions of this policy are applicable to all students attending Pine Creek High School, including those above and below the age for compulsory attendance as required by law.

Accumulation of tardies begins at each new semester. "Discipline" means detention, progressive detention, suspension, or possible expulsion.

Late Grade Policy

Students may turn in late assignments one class period after the original due date.

Students may receive 70% of the credit earned on any late assignment.

- Missing assignments will be marked as "M" in Infinite Campus no later than 3:00 pm the following day.
- Late assignments will be marked as "late" in Infinite Campus.
- No late assignments will be accepted for CLASSWORK that was assigned when a student was present during that class.

Lunch Access – If a student attends Lunch Access, they may complete assignments that are late for THAT WEEK ONLY (Monday – Friday). Students may receive 70% of the credit earned on any late assignment completed and submitted during Lunch Access.

Student advocacy is an important part of a student's ownership of their educational journey. It is important that a student have ongoing conversations with their teachers regarding any challenges or absences that will affect their learning and their grades. Early communication and student advocacy may result in cooperation and grace.

Makeup Work

It is the student's responsibility to obtain and make up any work missed as a result of an EXCUSED ABSENCE. The amount of time allowed for makeup assignments to be completed is the length of the excused absence plus one day.

If, for example, a student misses three days due to an illness, he/she would have to turn in all missed assignments within four school days of his/her return to school (3 excused days of absence + 1 day = 4 days to turn in work). If a test has been scheduled during the time of the absence, the student is expected to take the test during the designated makeup period. (This does NOT apply to pop quizzes or other tests that have not been planned and publicized ahead of time.)

Any schoolwork missed due to an UNEXCUSED ABSENCE cannot be made up or counted for credit. Any assignments due the day of an UNEXCUSED ABSENCE will be considered late.

Balancing Rights and Responsibilities

With student rights come student responsibilities. In most cases, this means “follow the rules.” The rights of all others in the school environment are protected when students exercise responsibility and follow the rules.

The rules and regulations, the most important of which are summarized in this handbook, are designed to protect rights, yours and others’. They help set expectations so that students learn behavior patterns which enable them to become responsible members of society. The rules also allow us, if necessary, to discipline individuals who do not respect rules. They also help protect every student’s right to an education. Given the Columbine tragedy and other more recent events, students need to tell an adult if they are aware of other students who are planning to harm themselves or others in the school or community. This is not being a “snitch” or a “tattle- tale.” It is responsible citizenship that could save lives, including your own. Safe2Tell® provides a way for students to anonymously report any threatening behaviors or activities endangering them or someone they know. A report can be made by calling 877-542-SAFE (877-542-7233) or online at [Make a Report](#).

Bullying (administrative policy JICDE):

The District supports a school climate that is free from threats, harassment and any types of bullying behavior. All types of bullying are unacceptable. “Bullying” is defined in District policy JICDE and state law as “the use of coercion or intimidation to obtain control over another person or to cause physical, mental, or emotional harm to another person. Bullying can occur through written, verbal, or electronically transmitted expressions (i.e., cyberbullying) or by means of physical act or gesture.” Bullying is prohibited against any student for any reason, including but not limited to any such behavior that is directed toward a student on the basis of his or her academic performance or any basis protected by federal and state law, including disability, race, creed, color, sex, sexual orientation, gender identity, gender expression, marital status, national origin, religion, ancestry or the need for special education services, whether such characteristic(s) is actual or perceived. Bullying does not necessarily include all conflicts between students. A student who engages in an act of bullying and/or a student that takes retaliatory action against a person, who in good faith reports an incident of bullying, is subject to appropriate disciplinary action, including suspension, expulsion and/or referral to law enforcement authorities. The District cannot respond to allegations of bullying unless it knows about them. Please tell an adult in your building if you have been bullied or if you have witnessed bullying. Safe2Tell® is a way to anonymously report any threatening behavior that endangers you, your friends, your family or your community. To make a report using Safe2Tell®, call 877-542-SAFE (877-542-7233) or online at [Make a Report](#).

Cell Phones and other Electronic Devices

Policy [JICJ](#) allows students to carry electronic communication devices approved by the building principal, but these devices must be turned off and put away during instructional time unless they are being used for instructional purposes and with approval of the teacher. During non- instructional time, school staff may restrict students’ use of such devices if, in their judgment, use of the devices interferes with the educational environment. Violation of this policy may result in disciplinary action and confiscation of the electronic communication device. A conference between the parent/guardian, student and school personnel may be required in the event an electronic communication device is confiscated. School personnel will not accept responsibility for lost or stolen personal property. The student will assume responsibility for replacement costs in the event that an electronic device or cell phone is lost or stolen.

Electronic device use is prohibited during state testing, AP testing, SAT, PSATs, and all other exams given at Pine Creek High School. Unless specifically allowed by the instructor, electronic device use is also prohibited on all class assessments.

Closed Campus/Off-Campus Privileges

Once a student has arrived on campus, they may not leave school property until the end of the school day unless properly excused by a guardian, or unless they have a partial absence in their schedule. The privilege of leaving campus during the lunch hour is limited to 10th, 11th, and 12th grade students only. This means that upperclassmen may not drive Freshman off campus during lunch. Inappropriate behavior in the community, attendance, or tardy problems at lunch will result in revocation of the privilege.

Clubs (see Student Organizations)

Meetings of student groups must be organized, scheduled, and conducted within the guidelines established by policy JJA and accompanying procedure. All proposed student organizations shall use the common District-wide application that can be found in [JJA E](#). The principal, or designee, will communicate a final decision to all proposals using the submitted District-wide application.

For a current list of clubs and programs, see the [Pine Creek website \(Clubs and Activities\)](#).

College Classes-Opportunity to Accelerate Learning

Pathways to College

Students may earn college credit at a significant cost and time savings.

Concurrent Enrollment (CE) Programs Act [C.R.S § 22-35- 103(6)(a)] and **District 20 Concurrent Enrollment policy IHCD A** make it possible for eligible students in grades 9-12 who are under the age of 21 and officially registered at an Academy District 20 high school and at a qualified institution of higher education with whom the District has a written cooperative agreement to earn college credit at a significant cost and time savings. Interested students may contact the high school counselor for information on the eligibility criteria and application process as identified by the statute and the District policy.

Accelerating Students through Concurrent Enrollment (ASCENT) (administrative procedure IHCD A R 2) is a fifth-year **IHCD A R 2** is a fifth-year program which allows eligible students to participate in concurrent enrollment courses for the year after 12th grade. Student eligibility includes meeting graduation requirements and the completion of at least 12 credit hours of transcribed postsecondary courses (non-remedial) by the completion of the 12th grade year. [C.R.S § 22-35-108]. ASCENT is a fifth year only program. Participation in the CE or ASCENT programs must align with a student's Individual Career and Academic Plan (ICAP). Students must complete the District's ASCENT application process and submit all approved documents to the high school concurrent enrollment designee by the published deadline.

Confidential Student Records-also see (The) Family Educational Rights and Privacy Act (FERPA) The District protects the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act (FERPA). Therefore, without written consent from a parent or guardian, we do not disclose personally identifiable information from a child's education records unless disclosure is covered by one of the exceptions in FERPA (see administrative policy [JRA/JRC](#)). If you wish to allow a third party (for example, a step-parent or other family members) access to personally identifiable information from your child's education records, please contact your

Addressing Concerns Related to Classroom Performance

We believe strongly that concerns are best addressed by those closest to the situation: the students and teachers. Students and parents should speak directly with teachers when they have questions or concerns before contacting administration.

building administrator to request a third-party consent form. Each parent or guardian must complete the form and have his or her signature notarized. Return the notarized forms to your building administrator. The permission will be effective until a parent/guardian revokes permission in writing and submits the revocation to the building administrator.

Disciplinary Removal from Class (administrative policy JKBA)

It is the policy of the District to maintain classrooms in which student behavior does not interfere with the ability of the licensed staff member to teach effectively or the ability of other students to participate in classroom learning activities.

Students shall be expected to abide by the code of conduct adopted by the District and any other appropriate classroom rules of behavior established by the licensed staff member, and approved by the building principal, for the purpose of maintaining order and a favorable academic atmosphere. Any student who violates the code of conduct or other classroom rules may be subject to removal from class and/or disciplinary removal.

Student removal from class is a serious measure and should not be imposed in an arbitrary, casual, discriminatory or inconsistent manner. Behavioral expectations are always more constructive and more likely to be followed when they are communicated as clearly as possible to students. However, it is neither possible nor necessary to specify every type of improper or inappropriate behavior, or every circumstance that would justify removal from class under this policy. Licensed staff members are expected to exercise their best professional judgment in deciding whether it is appropriate to formally remove a student from class in any particular circumstance. All instances of formal removal from class shall be documented.

A licensed staff member is authorized to immediately remove a student from his or her classroom if the student's behavior:

1. violates the code of conduct adopted by the District administrative policy; or
2. is dangerous, unruly, or disruptive; or
3. seriously interferes with the ability of the teacher to teach the class or of the students to learn.

A student with a disability may be removed from class and placed in an alternative educational setting only to the extent authorized by state and federal laws and regulations.

Removal from class under this policy does not prohibit the District from pursuing or implementing additional disciplinary measures including, but not limited to, detentions, suspensions, or expulsions for the conduct or behavior for which the student was removed, in accordance with District policy concerning student suspensions, expulsions and other disciplinary interventions. Parents/guardians should be notified of the student's removal from class in accordance with established procedures.

Equal Educational Opportunity (administrative policy JB)

Every student of this school district shall have equal educational opportunities through programs offered in the school district regardless of disability, race, color, ancestry, creed, sex, sexual orientation, gender identity, gender expression, marital status, national origin, religion, ancestry, age, genetic information or need for special education services.

Evaluation

You have a right to be evaluated fairly. Grades, progress reports, and other forms of evaluation should be based on requirements that are clearly set forth by teachers and they should be applied fairly to all students.

(The) Family Educational Rights and Privacy Act (FERPA) (administrative policy JRA/JRC), Notification of Rights under:

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the school receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Parents or eligible students who wish to ask the school to amend a record should write the school principal, clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent. FERPA does permit disclosure without a parent's or guardian's written consent to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, teacher, or support staff member (including but not limited to paraprofessionals, transportation personnel, health and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own staff members and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor medical consultant, or therapist; a parent or student volunteering to serve on an official committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Student Privacy Policy Office
U.S. Department of Education 400
Maryland Avenue, SW Washington,
DC 20202-8520

FERPA Notice for Directory Information (administrative policy [JRA/JRC](#)):

FERPA requires that the District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, the District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the District to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and

- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's or guardian's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.

If you do not want the District to disclose directory information from your child's education records without your prior written consent, you may opt out using the Extended Parent Portal. Contact your school if you need access to a computer.

The District has designated the following information as directory information:

- Student's name
- Student's photograph
- Student's grade
- Dates of attendance
- Enrollment status
- Participation in officially recognized activities & sports
- Weight and height of members of athletic teams
- Major field of study
- Degrees, honors, and awards received
- The most recent previous educational agency or institution attended

Please note that FERPA contains a specific exclusion for records such as investigative reports, risk assessments, and other records created and maintained by school security personnel, which may be disclosed without consent. 20 U.S.C. § 1232g(a)(4)(ii)(B)(II).

Free Association

You are generally free to associate with groups of your own choosing. However, any group, school-sponsored or not, that acts to interfere with the rights of others, or disrupt the educational process, may be subject to disciplinary actions by school officials or appropriate law enforcement agencies.

Free or Reduced Lunch (administrative policy EF)

Students do best in school if they have eaten a nutritious and balanced meal. Academy District 20 participates in the National School Lunch Program that provides free or reduced-price lunches to eligible students. The Board of Education agrees to the federal eligibility regulations, and the food service program meets all state and federal requirements relating to meal and menu records, fiscal controls and accountability, free and reduced-price meals, civil rights compliance, sanitation, and safety.

Gangs (administrative policy JICF):

Gang activities at school impose a threat to the welfare and safety of students and others in the school community and cause substantial disruption to the educational process.

The term "gang" as used in this policy refers to two or more individuals who share a common interest, bond, or activity characterized by criminal, delinquent, or otherwise disruptive conduct engaged in collectively or individually.

The Board of Education and District administration desire to keep District schools and students free from the threats of harmful influence of any groups or gangs which advocate drug and/or alcohol use, violence, or disruptive behavior. School district personnel shall maintain supervision of school premises, school vehicles, and school-related activities to deter gang intimidation of students and confrontations between members of different gangs. The superintendent or designee shall establish open lines of communication with local law enforcement authorities to share information and provide mutual support in this effort. The superintendent or designee shall provide periodic in-service training to help staff members identify gangs and gang symbols, recognize early manifestations of disruptive activities and respond appropriately to gang behavior.

Any apparel or manner of grooming which by virtue of its color, arrangement, trademark, or any other attribute denotes membership in or affiliation with any gang is prohibited on school premises, in school vehicles, and at school-related activities. Any gestures, signals, or graffiti which connote gang membership or activities are also prohibited. These prohibitions shall be applied at the principal's discretion after consultation with the superintendent or designee, as the need arises at individual school sites.

Dress Code for Students (administrative policy JICA):

You have a right to dress as you want in accordance with your own taste so long as it is not materially and substantially disruptive to the educational process. The Student Dress Code, administrative policy JICA, defines certain clothing or appearance as disruptive if it advocates drug use, violence, or unlawful activity. If your clothes are inappropriately revealing or tattered and torn, you will be in violation of the dress code as well. A safe and disciplined learning environment is essential to a quality educational program. District-wide standards on student attire are intended to help encourage school pride and thereby help students concentrate on schoolwork, reduce discipline problems, and improve school safety. The District administration is committed to the idea that students have a right to express themselves through dress and personal appearance, and that student dress has an effect on behavior, work quality and school pride. Students are not permitted to wear apparel that is disruptive or potentially disruptive to the classroom environment or to the maintenance of a safe and orderly school.

Subject to approval by the superintendent or designee, school administrators may develop and adopt additional specific dress code standards for their own schools consistent with this policy. Disciplinary actions for violation of the dress code standards will include notification to the student of the violation, the requirement that the clothing be changed before re-entering class, and at the discretion of the building administrator, a parental conference. More severe disciplinary consequences, including suspension or expulsion, may result from repeated or serious violations.

The following shall not be worn in school buildings, on school grounds or at school activities:

1. Any clothing, paraphernalia, grooming, jewelry, accessories, or body adornments that: are disruptive, or potentially disruptive, to the educational environment as determined by the administrator; including but not limited to items that:

2. Clothing that:
- reveals all or part of the stomach, buttocks or chest; or
 - is backless; or
 - reveals underwear; or
 - is inappropriately sheer, short, tight or low-cut.

Exceptions:

Appropriate clothing may be worn in physical education classes or when participating in, or attending, school sponsored sports activities. Clothing normally worn when participating in, or attending, other school sponsored extracurricular activities such as prom or homecoming, may be worn when approved by the administrator and sponsor or coach.

Drug and Alcohol Involvement by Students (administrative policy [JICH](#)):

It shall be a violation of District policy and considered to be behavior that is detrimental to the welfare and safety of other students or school personnel for any student to possess, use or distribute alcohol or drugs, or to possess drug paraphernalia on school property or at school- sponsored events. **Sharing any controlled substance, including prescription medication, is also a violation of District policy.** In order to promote a healthy and safe learning environment, the school district will take disciplinary action that may include suspension or expulsion from school and may include referral to law enforcement for criminal prosecution.

Students who use or possess alcohol or drugs or are under the influence of alcohol or drugs in violation of policy JICH will be disciplined in the following manner:

- First Offense - The student will be suspended for five school days, and the principal may request the superintendent to extend the suspension up to an additional five days. At the discretion of the principal and with the concurrence of the superintendent, this period may be shortened up to five days provided that the student agrees to complete an appropriate program, which may include an alcohol and/or drug education/treatment/counseling program and/or community service, details of which shall be agreed to between principal and parent. Costs of the program shall be borne by student and parent. Failure to provide documentation of completion of the program within the prescribed time limits will result in the imposition of the additional days of suspension.

Based on circumstances of individual cases, including but not limited to situations involving particularly pernicious, harmful, or addictive illegal drugs such as felony class- controlled substances, the principal or designee, at his or her discretion, may recommend additional suspension or expulsion. Violations of administrative policy [JLCD](#) on Administering Medications to Students may result in disciplinary action, at the discretion of the principal or designee.

Regarding non-instructional time, school staff members have the authority to restrict students' use of such devices in school buildings, on school buses, at school-sponsored activities and on field trips, if in the judgment of the staff member, the use of the device interferes with the educational environment. Use of a device to record all or part of any classroom instruction is permissible only with the approval of the teacher.

Use of electronic communication devices with cameras is prohibited in locker rooms, bathrooms, or other locations where such operation may violate the privacy rights of another person. It is the student's responsibility to ensure that the device is turned off and out of sight during unauthorized times.

Violation of this policy and/or use that violates any other District policy may result in disciplinary action and confiscation of the electronic communication device. A conference between the parent/guardian, student and school personnel may be required in the event an electronic communication device is confiscated.

Law enforcement officers' involvement--Interrogations and interviews

When law enforcement officials request permission to question students when students are in school or participating in school activities, the principal or designee shall ascertain that the law enforcement officer has proper identification and shall be present unless a court order provides otherwise. Except when law enforcement officers have a warrant or other court order, or when an emergency or other exigent circumstances exist, such interrogations and interviews are discouraged during students' class time.

It is the responsibility of the law enforcement officer interviewing student witnesses or interrogating student suspects to assure compliance with all applicable procedural safeguards. Upon request by law enforcement to interview a student witness or interrogate a student suspect, school officials shall make an effort to notify the student's parent/guardian, except in cases involving investigation of reported child abuse where the suspected perpetrator is a member of the student's family, when law enforcement has a court order directing that the student's parent/guardian not be notified, or when an emergency or other exigent circumstances exist. However, whether or not to postpone the interview or interrogation until the parent/guardian arrives is the law enforcement officer's decision.

Seizure of items

Anything found in the course of a search conducted by school officials which is evidence of a violation of law or District policy or school rules or which by its presence presents an immediate danger of physical harm may be:

- Seized and offered as evidence in any expulsion proceeding. Such material shall be kept in a secure place by the principal until it is presented at the hearing.
- Returned to the student or the parent/guardian.
- Turned over to a law enforcement officer in accordance with this policy.

Search and seizure

The principal or designee may request a search on school premises be conducted by a law enforcement officer. When law enforcement officers respond to such a request, no school staff member shall assist or otherwise

participate in the search. It is expected that searches by law enforcement will be conducted in accordance with the requirements of applicable law.

Custody and/or arrest

Students will be released to law enforcement officers if the student has been placed under arrest or if the student's parent/guardian and the student consent to such release. When a student is removed from school by law enforcement officers for any reason, school officials will make reasonable efforts to notify the student's parent/guardian.

It is expected that all procedural safeguards prescribed by law are followed by law enforcement officers conducting student arrests. However, District staff is not responsible for an officer's legal compliance when arresting a student.

Parking Lot/Vehicle Searches (administrative policy JIHB)

The privilege of bringing a student-operated vehicle on to school premises is conditioned on consent by the student driver to allow for search of the vehicle when there is reasonable suspicion that the search will yield evidence of contraband.

Refusal by a student, parent/guardian, or owner of the vehicle to allow access to a motor vehicle on school premises at the time of request to search the vehicle shall be cause for termination without further hearing of the privilege of bringing the vehicle on to school premises. If a student refuses to consent to search, a parent or guardian will be contacted to obtain their consent to search. If the consent to search is denied by parent, then the vehicle shall be removed immediately from District property and forever banned from all District property. In such cases, there will be no refund of the parking fees paid, and the student will not be permitted to purchase a future parking pass. Should the vehicle be subsequently found on District property, it is subject to being towed at the owner's expense immediately without notice. Refusal to submit to search also may result in disciplinary action and notification of law enforcement officials

Student Organizations (administrative policy JJA)

Students in middle and high schools in this District shall be permitted to conduct meetings of student clubs or student organizations to meet on school premises during noninstructional time, in accordance with administrative policy [JJA](#). Curriculum-related student organizations serve as an extension of the regular school curriculum and bear a direct relationship to and alignment with Colorado Academic Standards. The function of curriculum-related student organizations is to enhance the participants' educational experience and supplement the course materials within the educational program of the schools. Curriculum-related student organizations must articulate how the content and activities of the proposed student organization will extend the regular school curriculum and how they align with the Colorado Academic Standards. Student organizations meeting these criteria and approved by the principal will be deemed to be officially recognized, school-sponsored student organizations. All proposed student organizations shall use the common District-wide application that can be found in [JJA E](#). The principal, or designee, will communicate a final decision to all proposals using the submitted District-wide application.

Secondary school students are also permitted to organize and conduct meetings to pursue activities outside of the school curriculum. Such organizations must be student initiated and directed, and persons not attending school in this District, parents, school personnel or non- school persons are prohibited from directing, conducting, controlling, or regularly attending the activities of a noncurricular student group. Noncurricular student groups shall not be deemed to be school-sponsored or endorsed. Students seeking approval for a student organization to meet at school during noninstructional time should seek approval from the principal or his or her designee in accordance with administrative procedure [JJA R](#).

Student Use of the Internet and Electronic Communications (administrative policy JS)

The Internet and electronic communications are fluid environments in which students may access materials and information from many sources, including some that may be harmful to students. While it is impossible to predict with certainty what information students might locate or come into contact with, the District shall take reasonable steps to protect students from accessing material and information that is obscene, pornographic, or otherwise harmful to minors. Students shall take responsibility for their own use of District digital resources to avoid contact with material or information that may be harmful to minors.

Blocking or filtering obscene, pornographic, or harmful information

The District will make reasonable efforts to ensure that digital resources are used appropriately and responsibly, and to comply with CIPA (Children's Internet Protection Act) and other applicable laws. Students shall take responsibility and use good judgment when using district digital resources to avoid contact with material or information that may be harmful to minors. Each student shall comply with federal and state law, District policy and the school's code of conduct and the provisions of this responsible use agreement. It is important for students to make sure that all electronic communications are respectful at all times, and do not violate the District bullying policy (JICDE). Students should report any inappropriate content or contact, including harassment, threats, or hate speech to a responsible adult.

No expectation of privacy

District digital resources are owned by the District and are only intended for educational purposes. Students shall have no expectation of privacy when using the Internet or electronic communications. The District reserves the right to monitor student activity on the District network and all District digital resources to include data transmitted to/from personal digital resources. All material and information accessed/received through the District network shall remain the property of Academy District 20 and subject to disclosure under the Colorado Open Records Act.

Unauthorized and unacceptable uses

Students shall use digital resources in a responsible, efficient, ethical, and legal manner. Because technology and ways of using technology are constantly evolving, every unacceptable use of digital resources cannot be specifically described in policy. Therefore, examples of unacceptable uses include, but are not limited to, the following.

No student shall access, create, transmit, retransmit, or forward material or information:

- that impersonates another or transmits through an anonymous remailer
- that possesses or uses malicious software, hacking software, personal VPN software, proxy software, or devices used for these purposes on District property, and bypassing the Internet filter in any way.

Security

Security on digital resources is a high priority. Students who identify a security problem while using a digital resource must immediately notify a system administrator. Students should not demonstrate the problem to other users. Logging on to the Internet or electronic communications as a system administrator is prohibited. Students shall not:

- use another person's password or any other identifier
- gain or attempt to gain unauthorized access to district digital resources
- read, alter, delete, or copy, or attempt to do so, electronic communications of other system users

Any user identified as a security risk, or as having a history of problems with technology, may be denied access to the Internet, electronic communications and/or digital resources.

Vandalism

Vandalism is defined as any malicious or intentional attempt to harm, destroy, modify, abuse, or disrupt operation of any network within the school district or any network connected to the Internet, operation of any form of electronic communications, the data contained on any network or electronic communications, the data of another user, usage by another user, or District digital resource. This includes, but is not limited to, the uploading or creation of computer viruses and the use of third-party encryption software.

District Provided Devices

DPDs are provided for education purposes only. They may not be taken out of the country, they will be filtered at school and at home, and they must be taken care of. Any damage should be reported within 24 hours, and upon disenrollment, the device must be returned. Defacing the device with stickers or adhesives is not allowed and if stickers are applied, they must be removed before returning the device to the district. Damage caused by these stickers may cause a fine to be assessed.

Unauthorized content

Students are prohibited from using or possessing any software applications, mobile apps or other content that has been downloaded or is otherwise in the user's possession without appropriate registration and payment of any fees.

Monitoring student use

The District will make reasonable efforts to see that the Internet and electronic communications are used responsibly by students. Administrators, teachers, and staff have a professional responsibility to work together to monitor students' use of the Internet and electronic communications, help students develop the intellectual skills needed to discriminate among information sources, to identify information appropriate to their age and developmental levels, and to evaluate and use information to meet their educational goals

Student use is a privilege

Use of the Internet and electronic communications demands personal responsibility and an understanding of the acceptable and unacceptable uses of such tools. Student use of the Internet, electronic communications and District digital resources is a privilege, not a right. Failure to follow the use procedures contained in this policy shall result in the loss of the privilege to use these tools and restitution for costs associated with damages and may result in legal action and/or disciplinary action, including suspension and/or expulsion, in accordance with District policy concerning suspension, expulsion and other disciplinary interventions. The District may deny, revoke or suspend access to District technology or close accounts at any time.

Students and parents/guardians shall be required to sign the District's Acceptable Use Agreement annually before Internet or electronic communications accounts shall be issued or access shall be allowed.

School district makes no warranties

The school district makes no warranties of any kind, whether express or implied, related to the use of District digital resources, including access to the Internet and electronic communications services. Providing access to these services does not imply endorsement by the District of the content, nor does the District make any guarantee as to the accuracy or quality of information received. The District shall not be responsible for any damages, losses or costs a student suffers in using the Internet and electronic communications. This includes loss of data and service interruptions. Use of any information obtained via the Internet and electronic communications is at the student's own risk.

Students with Life-Threatening Allergies (administrative policy JLCDA)

The District recognize that many students are being diagnosed with potentially life-threatening food allergies. To best protect students and to meet state law requirements concerning the management of food allergies and anaphylaxis among students, the District requires the following:

Health care plan

The school nurse, or a school administrator in consultation with the school nurse and parent, shall develop and implement a health care plan (plan) for each student with a diagnosis of a potentially life-threatening food allergy. The plan shall address communication between the school and emergency medical services, including instructions for emergency medical responders.

Reasonable accommodations

Reasonable accommodations shall be made to reduce the student's exposure to agents that may cause anaphylaxis within the school environment. If a student qualifies as a student with a disability in accordance with federal law, the student's Section 504 plan, Individualized Education Program (IEP), and/or other plan developed in accordance with applicable federal law shall meet this requirement.

Access to emergency medications

Emergency medications for treatment of the student's food allergies or anaphylaxis shall be kept in a secure location accessible to designated school staff. The student's parent/legal guardian shall supply the school with the medication needed for treatment of the student's food allergies or anaphylaxis, unless the student is authorized to self- carry such medication in accordance with administrative policy [JLCD](#), Administering Medications to Students. Even if the student is authorized to self-carry, the parent is strongly encouraged to provide self-injectable epinephrine to the school.

Staff training

The principal or designee, in consultation with the school nurse, shall determine the appropriate recipients of emergency anaphylaxis treatment training, which shall include those staff directly involved with a student who has a known food allergy during the school day.

Suspension and expulsion (administrative policy JKD/JKE):

Academy District 20 shall provide due process of law to students, parents/guardians and school personnel through written procedures consistent with law for the suspension or expulsion of students and the denial of admission.

The Board and its designee(s) may consider the following factors in determining whether to suspend or expel a student:

2. the student's disciplinary history;
3. the student's eligibility as a student with a disability;

2. Willful destruction or defacing of school property.
3. Behavior on or off school property that is detrimental to the welfare or safety of other students or school

4. Declaration of the student as a habitually disruptive student, pursuant to administrative policy [JK](#) and its accompanying administrative procedure.
 - a. For purposes of this paragraph, "habitually disruptive student" means a child who has caused a material and substantial disruption three times during the course of the school year on school grounds, in a school vehicle or at school activities.
 - b. The student and the parent, legal guardian, or legal custodian shall have been notified in writing of each disruption counted toward declaring the student as habitually disruptive and the student and parent, legal guardian, or legal custodian shall have been notified in writing and by telephone or other means at the home or the place of employment of the parent or legal guardian of the definition of "habitually disruptive student."

9. Failure to comply with the immunization requirements as specified in Colorado law and administrative policy [JLCB](#) unless a bona fide medical or religious exception applies. Any exclusion for such failure to comply shall not be recorded as a disciplinary action but may be noted in the student's permanent record with an appropriate explanation.

Grounds for denial of admission

Admission to Academy District 20 may be denied a student for the following reasons:

1. Graduation from the 12th grade of any school or receipt of any document evidencing completion of the equivalent of a secondary curriculum;

6. Failure to comply with the immunization requirements of Colorado law and administrative policy [JLCB](#) unless a bona fide medical or religious exception applies.

Expulsion or Denial of Admission for unlawful sexual behavior or crime of violence

When a petition is filed in juvenile court or district court that alleges a student between the ages of 12 to 18 years has committed an offense that would constitute unlawful sexual behavior or a crime of violence if committed by an adult, basic identification information, as defined in state law, along with the details of the alleged delinquent act or offense, is required by law to be provided immediately to the school district in which the juvenile is enrolled.

The information shall be used by the superintendent to determine whether the student has exhibited behavior that is

June 1, 2023

detrimental to the safety, welfare, and morals of the other students or school personnel and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The District shall take appropriate disciplinary action, which may include suspension or expulsion, in accordance with the student code of conduct and related policies.

The Board of Education may determine to wait until the conclusion of court proceedings to consider expulsion, in which case it shall be the responsibility of the District to provide an alternative educational program for the student as specified in state law.
